Mobility Scooter Users May Find A Supplier Of MK Batteries At Mobility City Of Lake County

February 27, 2020

February 27, 2020 -
Grayslake, IL based Mobility City of Lake County is reaching out to customers who may be concerned that their mobility scooters? batteries are wearing out. The company offers an excellent battery maintenance and replacement program, and they reassure their customers that convenience and accessibility is always a top priority. Learn more at the following link: Replacement Batteries Power Scooters.

Mobility City of Lake County states, ?As spring approaches and people start needing their mobility power scooters again, they may find that their batteries are now dead and refuse to hold a charge, at least for any functional period. Fortunately, Mobility City of Lake County has the answer. We not only service Lake County, but also McHenry County and Kenosha County in Wisconsin.? The most crucial part of their services, however, may be the company?s ability to take their customers? convenience into account.

To minimize hassle and ensure that mobility scooters users always have access to the services they require, the company utilizes an at-home maintenance program. In practice, this means that they are ready and willing to visit their customers at their houses in order to resolve their scooter issues. Mobility City of Lake County is pleased to clarify that customers may get their battery replacements this way as well. They state, ?We have batteries in our van and can come to you as soon as you reach out to us. Our battery package starts at $199 and includes 2 MK batteries, installation of new batteries and disposal of old batteries. We also check your battery charger, and we warranty the batteries for 12 months. Just call 224-234-2311, and we can be out, most times within 24 hours, to get you up and running again.?

The MK battery supplier states that they can carry out other kinds of maintenance as well, and mobility scooter users are welcome to inquire about the repairs and so on that can be carried out onsite. Their vans stock a variety of spare parts and tools in addition to batteries, so many problems can be rectified over the course of their visit. Should the issue at hand be too extensive to manage at a customer?s home, however, the company is happy to transport the defective scooter back to their premises for more comprehensive repairs. It shall also be delivered back once it is restored to working condition.

Mobility City is the leading mobile repair, cleaning and maintenance company for wheelchairs, power chairs, mobility scooters and other mobility products in the region. Their products and services are meant to offer more versatility to seniors as well as injured and disabled persons, young and old alike. While their products are primarily intended to open new avenues of mobility for their customers, the company?s services are geared towards helping these devices stay fully functional once they are put to use. This two-pronged approach allows Mobility City of Lake County to ensure that their customers always have mobility options at their disposal. Similarly, the company takes measures to reduce the downtime that their customers have to experience while their devices undergo essential maintenance and repairs.

?We strive to bring a highly compassionate and educated approach to meeting your mobility solutions?no matter if you?re looking for repair, rental, new equipment, or equipment,? says Mobility City of Lake County. ?Our product inventory boasts top of the line equipment at competitive prices. Plus, you always have the opportunity to test equipment out in-store.?

This statement is backed up by the company?s reviews. On the Google platform, for instance, the company boasts a full 5-Star score. One such review from Cheryl Reusch states that, ?We had to have my mom's jazzy wheelchair checked due to an accident. Through a Google search, I found Mobility City. Kevin, the owner, answered the phone and was just great. He set us up with Mark in service, who was very knowledgeable and friendly. The office girl (sorry, name slipped my mind) was very sweet and kept us informed of how the job was going. It was a great experience overall, and I would recommend them.?

Interested parties may learn more about the company by browsing their official website and other online resources. Tim Bartley of Mobility City of Lake County is on hand to respond to any further inquiries, and the company?s customer service team can be reached through their social media platforms as well.
