February 26, 2020 - PRESSADVANTAGE -

Gardendale, Ala. ? Local audiologist in Gardendale, AL, Beltone USA, recently offered those in their community living with mild to severe hearing loss, the opportunity to participate in an exclusive trial of their newest addition in hearing technology, the Beltone Amaze?. Qualified participants will be fit with the Beltone Amaze? hearing aid and expected to provide feedback on a number of the device?s features such as sound quality, comfort, and cosmetic appearance.

The Beltone Amaze? is a state-of-the-art hearing aid in Gardendale, AL that boasts of a virtually invisible design and comfortable design that sits inside the wearer?s inner ear canal. Built with the fastest micro-processing technology available built into the device?s design, the Beltone Amaze? allows for connectivity to most mobile devices and Beltone?s Direct Line of wireless accessories. The trial offered qualified patients the opportunity to sample the technology with no obligation to buy but offers an exclusive rebate for participants who wish to continue using the technology at the conclusion of the trial.

In early 2020, The Beltone Amaze? was awarded the 2020 BIG Innovation Award for Android Streaming Technology presented by the Business Intelligence Group. The technology geared award recognizes the breakthrough technology for its ability to directly stream phone calls, music and other sounds directly into the hearing aid from devices that run on the Android operating system while in previous years this technology was only available for use with Apple devices. Furthermore, the device utilizes Bluetooth Low Energy technology allowing for extended battery life and use.

Thought the trial was limited to a select number of offices in the state of Alabama, interested parties are encouraged to make an appointment with their local Beltone USA office to learn more about the new Beltone Amaze? hearing aid.
