

Sandy, Utah Carpet Cleaning Company Highlights Importance Of Regular Carpet Cleaning And Maintenance

March 11, 2020

March 11, 2020 - PRESSADVANTAGE -

Centerville, Utah based Mr. Chem-Dry recently issued a public advisory highlighting the importance of regular carpet cleaning and maintenance. The company also explored the benefits of hiring a professional carpet cleaning company in order to achieve a clean and tidy look as well as to create and maintain healthy living spaces.

As noted on the company's website at <https://www.mrchemdry.com/carpet-cleaning-sandy-utah.html>, most homeowners think that regular vacuuming is more than sufficient to clean their carpets. However, Mr. Chem Dry asserts that, in addition to harboring dust, grime, and stains, carpets also carry particles and allergens that cannot be seen by the naked eye. Even if a carpet appears to be clean, there are still a lot of allergens in it that can cause skin irritation, asthma, and other respiratory problems. Among those pollutants are dust, pet dander and other potentially harmful particles that are stuck deep in the fibers of the carpet. Moreover, most vacuum cleaners don't have enough sucking power to deeply clean and fully extract this detritus, especially if the carpet is made from very thick material.

Meanwhile, Daryl Olsen from Mr. Chem-Dry highlights the benefits of having regular carpet cleaning and maintenance carried out. He states that, in addition to maximizing the lifespan of a carpet, regular cleaning also improves its overall appearance. When carpets experience heavy foot traffic, they begin to look old and dirty. By removing dirt and stains as soon as they appear, homeowners can maintain the original colors of the carpet fibers, making them look vibrant and rejuvenated.

He also recommends that homeowners hire a professional carpet cleaning company because they know exactly which products to use on different types of carpets. "Getting your carpets cleaned by a professional company such as Mr. Chem-Dry will ensure that all the dirt will be pulled from your carpets without damaging their fibers," says Olsen. Mr. Chem-Dry, for instance, has developed Natural® Chem-Dry, a proprietary solution that provides deep down cleaning without using harsh detergents and chemicals. In addition, the Chem-Dry process also uses 80% less water compared to other cleaning processes. This means that carpets, upholstery, furniture and rugs can be completely dry in just a couple of hours.

In a household with young children, pets and the elderly, Olsen adds, it is essential that professional carpet cleaning be carried out at least once or twice a year. Professional carpet cleaning is important not only for hygiene but also for the longevity of the carpet. Periodic cleaning will let homeowners enjoy their carpets for longer without having to buy new ones as often as they otherwise would have.

Mr. Chem-Dry is a full service carpet cleaning company that provides professional cleaning services to both commercial establishments and residential homes in the Northern Utah area. Their service area includes Salt Lake, Ogden, Centerville, Sandy, Davis, Weber, Salt Lake and the surrounding areas.

Mr. Chem-Dry is one of the most trusted carpet cleaners in the area that takes pride in their experience, systems, education, reputation and satisfaction guarantee to provide the best cleaning service possible to their customers. In fact, many of their previous customers attest to the company's quality workmanship and excellent customer service.

Lori Odell, in glowing Google review, says, "We had a serious pet urine issue with our carpets, and Mr. Chem-Dry did a fantastic job taking care of it for us. We've hired several carpet cleaning companies in the past, and none of them did as great of a job as Mr. Chem-Dry. They were very thorough, professional and friendly. We will definitely hire them for all of our future carpet cleaning needs. I highly recommend this company."

Meanwhile, in another 5-star Google review, Dallyn Gile says, "I was able to get an appointment on short notice; the gentleman was punctual and finished much faster than anticipated. We've lived in our rental for a year and a half now and, while the carpets were 'cleaned' just before we moved in, they were never truly clean. He was able to easily get out the spots from the previous renters that I had given up hope of ever

removing. The carpet dried quickly, and I couldn't have been happier with the experience.?

Complete details can be found on the company's website at <https://www.mrchemdry.com/>. Interested parties may connect with Mr. Chem-Dry via social media as well to stay abreast of their latest news and important announcements.
