The Youth Fountain Employs ?Whole Person? Approach for Health and Wellness

March 02, 2020

March 02, 2020 -

The Youth Fountain, based in Freehold, New Jersey, has revealed that they apply a ?whole person? approach to every patient who comes to them to be able to find the perfect treatment plan for that particular person. Rather than focusing on just one area, a multi-faceted strategy is applied to enhance the health and wellness of a patient. They make use of cutting edge technology, such as EmSculpt, CoolSculpting®, and truSculpt iD. They also provide treatments designed for providing facial rejuvenation, such as PICO Genesis, PRP and Plasma Facials, Chemical Peels, and Secret RF. Wrinkles may be reduced through Dysport or Botox. Other services include physician supervised weight loss plans and IV nutrient and energy infusions.

Dr. Shakov from The Youth Fountain says, ?We help our patients become the best possible version of themselves. We pride ourselves on the fact that all our procedures are performed by us, two board certified physicians. We are dedicated to helping you find the perfect treatment plan. We take a ?whole person? approach to every patient we see. And we don?t focus on one area, rather all our patients receive a multi-faceted approach to health and wellness.?

An important category of their services is body sculpting. These make use of non-invasive and non-surgical body contouring techniques. These include EmSculpt, CoolSculpting, truSculpt 3D, Cellusmooth, Mesotherapy, and Allura. Benefits include spot treatments, getting rid of cellulite, fat reduction, or building your muscles without exercise. These techniques allow everyone to maintain an ideal body and look great. To know their location, how to get there, and other information, people may want to check out their Youth Fountain GMB Listing.

The Youth Fountain also offers a broad range of skincare services. These skincare aesthetic services are designed to enhance the skin and make it more radiant. They address various issues such as wrinkles, loss of facial volume, unsightly veins, unwanted hair, sun spots, and uneven skin tone. These include IPL, tattoo removal, chemical peel, picogenesis, laser genesis, vein treatments, Dermapen, SecretRF, and hair removal.

They also offer injectables like Botox®, Dysport®, and Jeuveau®. These injectables may help to address a number of issues. These include crow?s feet, forehead lines, frown lines between the eyebrows, wrinkles across the top of the nose, gummy smile, dimpled chin, and plastysmal bands of the neck. These three injectables are all FDA-approved and are made from purified botulinum toxin type A.

Wellness treatments at The Youth Fountain include IV infusions, weight loss treatments, peptides, and ant-aging and hormone replacement. IV infusion therapy is technique for administering vitamins, minerals, and other nutrients directly into the bloodstream. This allows for higher than normal levels of the nutrients and this stimulates a therapeutic response as a result of the correction of deficiencies. Formulas for IV infusion being offered are for vitamin and mineral replacement, Myer?s cocktail, skin lightening, immunity, recovery and performance, anti-aging NAD, inner beauty, and treatment for PMS symptoms.

Hair restoration treatments can also be provided at The Youth Fountain. They offer hair restoration surgery, which is an outpatient procedure that utilizes tiny incisions that will leave no scarring. This procedure will require just 7 days for healing and recovery. The new hair that will grow will look and feel like natural hair.

Dr. Emil Shakov, MD, FACS, is an aesthetic surgeon who is board-certified. He underwent fellowship training in Bariatrics, Advanced GI, and Minimally Invasive Surgery. He then continue his training at The American Academy of Aesthetic Medicine and the Academy of Procedural Medicine where he mastered aesthetic procedures, medical weight loss, and anti-aging procedures. He has also trained with the well-known Hair Transplant 360 program in FUE and FUT treatments. He has skills in performing most modern hair restoration methods.

People who would like to know more about the services provided at The Youth Fountain can check out their website, or contact them through telephone or via email. They may also want to take a look at photos for The Youth Fountain at https://www.yelp.com/biz_photos/the-youth-fountain-freehold.
