300 Google Reviews and Counting for Fast Eddys Keys Express

March 05, 2020

March 05, 2020 -
Fast Eddys Keys Express is proud to announce that they have just gone over the 300 Google reviews mark on their Google Maps business page. They are a reputable company that has been providing residential and commercial locksmith services to those in Minneapolis since 1985. They also provide a variety of different locksmith services to such Minneapolis area satellite communities as Richfield, Bloomington, Edina, St Louis Park & Golden Valley.

Company Owner, Edward Mann, had this to say about passing the 300-review mark, ?This is a significant milestone for us in many different ways. For one, not everyone takes the time to leave a review when we do lock and key work for them, so that means we had to serve a significant number of customers to reach the 300-review mark. People also do not usually take the time to leave a review unless they are unhappy with a company?s service or extremely satisfied with it. Since the vast majority of our reviews are highly positive, it means we are doing something right as far as the way we go about providing locksmith services to our customers.?

At present, 301 reviews have been left for Fast Eddys Keys Express on their Google Maps business listing. The company has amazingly been able to maintain a 4.9 out of a possible 5-star rating on these Google reviews. That is something that?s very difficult for any service-based business to do and it greatly reflects the quality of the work that the company does for its customers. This 5 out of 5-star review by Nicole Schladt sums up why people are so happy with the service that they have received from the company as she writes, ?I called Fast Eddy after purchasing a new home that needed rekeying. He answered the phone immediately, came out to my house the next day, and completed everything I needed to be done in less than 30 minutes! His prices were very reasonable, and he even took the time to talk me through some additional security measures I could take to protect my home. Thank you so much, Fast Eddy!? Mann acknowledges that his locksmith service tries to go above and beyond what is called for whenever they do locksmith work for a customer.

Not only is the company thought of very highly in the reviews that have been posted on it but it has also been

recognized by business watchdog groups such as Angie?s List. A testament to that is a recent press release that focused on the fact that Fast Eddys Keys Express had just received an Angies List Super Service Award. This particular award is given out annually to honor service professionals who were able to maintain exceptional service ratings and reviews on Angie?s List in 2019. During the year there were a total of 56 reviews that were left on Angie?s list concerning the services that Fast Eddys Keys Express provided for them. Of those 56 reviews, an outstanding 52 reviews gave them the highest grade of A. Only a single review rated the company?s locksmith services as less than satisfactory. Here is a review taken from Angie?s List that shows why people are so happy with the services that Fast Eddys Keys Express provides to them. The customer says, ?These guys are the best! They're professional, trustworthy, gave great advice on home security and did a really great job replacing a lock and rekeying another. Thank you so much -- we'll definitely refer you to our friends and call again in the future.? This customer also gave them straight A marks in the specific categories of price, professionalism, punctuality, quality, and responsiveness.

Mann stated that they earned these high review marks and awards by offering quality commercial, automotive and home locksmith services. This list includes such lock and key services as lockout resolution, lock rekeying, safe opening, broken key extraction, transponder key reprogramming, and keyless entry lock installation. The company is also well-known for the informative Google Posts that they add on their Google Maps page and the business plays an active role in helping in their community too.
