D.I. Auto Care Offers Mobile Detailing in Phoenix Arizona Area

March 23, 2020

March 23, 2020 - PRESSADVANTAGE -

D.I. Auto Care has announced that they are offering mobile detailing Phoenix car owners can depend on. This high quality detailing service is designed to make the car appear brand new again for auto owners in the Phoenix Arizona area and surrounding communities. They can provide detailing services for different types of motor vehicles, including cars, trucks, boats, planes, recreational vehicles, motor coaches, and high-performance cars. In addition to auto detailing, they can also offer other services such as auto glass windshield repair replacement, window tinting, ceramic paint protection, and window tint removal.

Paul, a spokesperson from D.I. Auto Care, says, "We're truly excited to offer mobile detailing to people in Phoenix and neighboring areas. We encourage people in Phoenix and surrounding communities to check out our website to learn more about our services. Among other things, we can help in preserving the paint condition, restoring interior seats and carpets, increase the car resale value, making the car clean and shiny, engine detailing, removing light scratches, providing ceramic paint protection, and cleaning and conditioning of leather."

Mobile detailing is designed to make the car appear like brand new again. The detailing service has two components: interior detailing and exterior detailing. Exterior detailing has to do with the cleaning of the exterior surfaces and parts of the motor vehicle. In addition to the washing, the car's exterior surfaces may also need to be repainted with a paint that has a glossy finish. They may also need to replace or clean the chrome trim. And the windows, tires, and wheels and other exterior parts of the car will also need to be cleaned. After washing the external surfaces of the car, these are waxed and then polished.

For the interior detailing, they will perform deep cleaning of the whole interior cabin. This includes the cleaning of various kinds of materials inside the car, such as leather, vinyl, synthetic carpet upholstery, carbon fiber composites, natural fibers, and plastics. They will also vacuum and clean the interior, and this will include steam cleaning and the use of liquid and foam chemicals, and brushes. They will also polish any nonporous surfaces found in the interior of the motor vehicle. Those who say, "we are looking for mobile detailing near me," are advised to contact D.I. Auto Care or check out their website.

The professionals at D.I. Auto Care also provide window tint installation or removal for cars, homes, and offices. Window tinting has several benefits, such as the prevention of harmful UV rays from getting inside the car; increased privacy; prevention of the glass windshield from shattering; blocking of 99 percent of both UVA and UVB rays; up to 50 percent decrease in cooling costs; and reduction of heat inside the car. The window film on the glass may also be able to prevent the window from breaking and scattering bits of glass inside the car during a car accident. This is because the window film has enough adhesion to hold together the bits of glass, with the result that the glass bits will not be hitting the car's passengers and possibly causing injuries.

The professionals from D.I. Auto Care can also provide the replacement of auto glass windshields when this is necessary. This kind of service has several advantages. These include guaranteed satisfaction; less expensive auto glass replacement; quick recovery; lifetime warranty; and improved protection.

Auto glass replacement may be a better choice than just auto glass repair in a number of situations. One is when the windshield has very low visibility because of the defects on the windshield. This is very risky for the car's driver and passengers, especially when it is raining at night..

Those who would like to know more about the Phoenix mobile detailing services can take a look at the D.I. Auto Care website or contact them on the phone or through email. They are open from Monday to Sunday, from 5:00 am to 10:00 pm.
