Phoenix Mobile Detailing

D.I. Auto Care Offers Interior Detailing in Phoenix with Mobile Service

March 30, 2020

March 30, 2020 - PRESSADVANTAGE -

D.I. Auto Care has pointed out that when in search for interior detailing Phoenix car owners can expect this to be included with the mobile detailing service. It should be noted that aside from the detailing of the exterior parts of the car, they will also provide interior detailing, which means deep cleaning of the whole interior cabin. And in addition to detailing, they also provide window tinting, auto glass windshield repair or replacement, and ceramic paint protection coating. They are able to offer their detailing services for various types of motor vehicles, including cars, trucks, planes, recreational vehicles, boats, high-performance cars, and motor coaches.

Paul, a spokesperson from D.I. Auto Care, says, ?We provide mobile detailing to people in Phoenix and surrounding areas. Please check out our website to know more about our different services. Among other things, we can help in restoring interior seats and carpets, increasing the resale value of your car, preserving the paint condition of the car, making the car clean and shiny, removing light scratches, providing ceramic paint protection, engine detailing, and cleaning and conditioning of the leather in the interior.?

When performing interior detailing, the professionals at D.I. Auto Care will conduct deep cleaning for all parts of the interior cabin. This service will include cleaning of different types of materials inside the car, such as leather, synthetic carpet upholstery, vinyl, natural fibers, plastics, and carbon fiber composites. They will also clean up and vacuum the car interior, and this involves steam cleaning and the application of brushes, and liquid and foam chemicals. All nonporous surfaces in the interior of the car will be cleaned and polished. For those who are looking for a service to shampoo carpets Phoenix car owners can also depend on D.I. Auto Care.

D.I. Auto Care also offers window tint installation or removal for cars, offices and homes. Window tinting offers benefits, such as increased privacy; prevention of the glass windshield from shattering in dangerous little pieces; prevention of harmful UV rays from getting inside the car or home or office; blocking of 99 percent of both UVA and UVB rays that can cause cancer; up to 50 percent reduction in cooling expenses; and reduction of heat inside the car, home or office. It is important to note that the window film on the glass may be able to prevent the window glass from breaking and scattering bits of glass inside the car during a car accident. This is because the window film will hold together the bits of glass, with the result that glass bits are prevented hitting the people in the car.

Ceramic paint protection is another service that is available through D.I. Auto Care. A ceramic coating for cars offers several advantages. These include the ability of ceramic coatings to outlast other types of coatings; the car remaining clean for a longer period and ease of removing bugs and water spots; ability to make the car look like new for many years; protection of the car's surface so that it will remain shiny and sleek; savings from not having to clean or wash the car often; having a scratch resistant car surface; and ability of the paint coating to better withstand the elements.

The company also offers auto glass windshield replacement and repair. There are many reasons why car owners will need to have their auto glass replaced but it may be advisable to also consider the possibility of windshield chip repair. Defects in the windshield may not seem to be serious for some people but these can have the effect of decreasing visibility, particularly when driving at night and when driving into the sun. This is vital for the front windshield and rear window.

When looking for a company to clean and condition leather Phoenix car owners may want to take a look at the D.I. Auto Care website or contact them through the phone or via email. They are open from Monday to Sunday, from 5:00 am to 10:00 pm.
