D.I. Auto Care Offers Car Detailing Service in Ahwatukee

April 24, 2020

April 24, 2020 - PRESSADVANTAGE -

D.I. Auto Care has announced that they are offer car detailing services in the Ahwatukee area in Phoenix, Arizona. Through the service known as car detailing Ahwatukee car owners will be able to have their motor vehicles appear like brand new once more. This type of service can be provided for various kinds of vehicles, such as cars, high-performance cars, recreational vehicles, airplanes, boats, motor coaches, and trucks. In addition to car detailing, they can also provide other services such as ceramic paint protection, auto glass windshield repair replacement, window tinting, and window tint removal.

The car detailing service is intended to make the car look brand new again. This service has two parts: interior and exterior detailing. Exterior detailing has to do with the cleaning of the external surfaces and parts of the car. After washing, if necessary, the car's outer surfaces will be repainted with a paint that has a glossy finish. They may also replace the chrome trim if necessary, but if not, they will simply clean it. They will also clean the windows, tires, and wheels and other external parts of the car. As a finishing touch, the external parts are waxed and polished to make them shine.

Interior detailing involves deep cleaning of the whole interior of the car. This includes the cleaning of different kinds of materials in the interior of the car, such as synthetic carpet upholstery, leather, vinyl, plastics, carbon fiber composites, and natural fibers. They will also clean and vacuum the insides of the car, and this will also include steam cleaning and the use of brushes, and foam and liquid chemicals. They will also polish any nonporous surfaces found in the inside of the car.

Paul, a spokesperson from D.I. Auto Care, says, "We're happy to offer car detailing services to car owners in the Ahwatukee area and neighboring areas. We can assist in increasing the car resale value, preserving the paint condition, restoring interior seats and carpets, removing light scratches, providing ceramic paint protection, engine detailing, cleaning and conditioning of leather, and making the car clean and shiny. For people who are searching for detailing near me, we suggest that they visit our site."

D.I. Auto Care also provides ceramic paint protection. By installing a ceramic coating for the car, they can provide a number of benefits. These include the ability to make the car look like new for many years; the ability of ceramic coatings to outlast other types of coatings; the fact that the car will remain clean for a longer period of time and relative ease of eliminating bugs and water spots; having a scratch resistant car surface; protection of the car's surface so that it will remain shiny and sleek; savings from not having to clean or wash the car often; and ability of the paint coating to be better protected against the elements.

They also offer auto glass windshield replacement and repair. While defects in the windshield may not seem to be serious for a number of people, these can actually hamper visibility, particularly when driving at night or when driving into the sun.

Another service that they can provide is window tint installation or removal for offices, cars, and homes. Window tinting can provide a number of benefits. These include prevention of harmful UV rays from getting inside the car or home or office; increased privacy; prevention of the glass windshield from shattering in dangerous little pieces; reduction of heat inside the car, home or office; blocking of 99 percent of both UVA and UVB rays that can cause cancer; and up to 50 percent reduction in cooling expenses. The window film on the glass may also have the effect of preventing the window glass from breaking into little pieces that can injure people during a car crash.

Those who would like to know more about the Ahwatukee mobile detailing and other kinds of services can check out the D.I. Auto Care website or contact them on the telephone or through email. They are open from Monday to Sunday, from 5:00 am to 10:00 pm.
