Mobile Detailing in Phoenix Offered by D.I. Auto Care

May 04, 2020

May 04, 2020 - PRESSADVANTAGE -

D.I. Auto Care has revealed that they are providing mobile detailing Phoenix car owner are searching for when they want their cars to appear like brand new once again. This detailing service is available for a wide range of motor vehicles, such as cars, boats, planes, trucks, motor coaches, high-performance cars, and recreational vehicles. They can also provide other services such as window tinting, ceramic paint protection, auto glass windshield repair replacement, and window tint removal.

The primary purpose of mobile detailing is to make the car look like brand new once more. This detailing service has two parts: interior detailing and exterior detailing. Exterior detailing has to do with the cleaning of the outer parts and surfaces the car. After thoroughly washing the external parts of the car, the car's exterior surfaces may be repainted if the old paint will no longer suffice. The paint used will have a glossy finish to ensure that the car will look like new. They may also need to replace the chrome trim if it is already distorted or chipped but if not, they will simply clean it and make it shine. And the tires, wheels, windows, and other external parts of the car will also be cleaned. After washing the outer surfaces of the car, these will be waxed and then polished to make the car shine.

Paul, a representative for D.I. Auto Care, says, "We're ready to provide mobile detailing to car owners in Phoenix and surrounding areas. When looking for detailing near me Phoenix residents are urged to visit our website to learn more about our services. Among the many services that we can provide, we can help in restoring interior seats and carpets, increasing the car resale value, preserving the paint condition, engine detailing, removing light scratches, making the car clean and shiny, providing ceramic paint protection, and cleaning and conditioning the leather."

For the interior detailing, deep cleaning will be done for all of the interior parts of the car. The service includes the cleaning of different types of materials inside the car, such as vinyl, synthetic carpet upholstery, leather, natural fibers, plastics, and carbon fiber composites. They will also vacuum the interior, and this will include steam cleaning and the use of brushes, and liquid and foam chemicals. They will also polish all nonporous surfaces found inside the car.

They will also provide the replacement of auto glass windshields if this is needed. This kind of service has several benefits. These include less expensive auto glass replacement; quick recovery; guaranteed satisfaction; lifetime warranty; and improved protection.

Auto glass replacement may be advisable rather than auto glass repair in a number of situations. One is when the windshield already has very low visibility as a result of the defects on the windshield. This is very risky when driving at night, or when it is raining, or when driving into the sun.

Ceramic paint protection coating is another important service offered at D.I. Auto Care. For this, they use the latest advancements, such as the nano ceramic coating for cars, boats, and trucks. This is a glass like coating that will provide the car with a better shine and more protection for the paint against the heat of the sun.

Ceramic coating offers a number of benefits for car owners. These include the ability of ceramic coatings to outlast other types of coatings; the fact that the car will remain clean for a longer period of time and relative ease of eliminating bugs and water spots; the ability to make the car look like new for many years; protection of the car's surface so that it will remain shiny and sleek; savings from not having to clean or wash the car often; having a scratch resistant car surface; and ability of the paint coating to be better protected against the elements.

People who would like to know more about Phoenix mobile detailing and other kinds of services offered by D.I. Auto Care can check out their website or contact them through the telephone or via email. They are open for business from Monday to Sunday, from 5:00 am to 10:00 pm.
