Chicago Dental Practice Announces Update On Fundraiser For St. Jude Children's Research Hospital

September 03, 2015

September 03, 2015 -
1st Family Dental in Chicago, Illinois, has announced an update on its fundraising campaign that will benefit St. Jude Children's Research Hospital. The family dental practice has a goal of raising $50,000 for the hospital, and has already raised over $33,000, as of August 31.

On the fundraising effort, 1st Family Dental spokesperson Vicky Khawaja said, "We want to encourage parents to schedule their children's back-to-school dental check-up. Not only will you be helping your child to protect his or her smile, you'll also be helping children who are going to begin the school year in a hospital, hoping for a cure."

St. Jude Children's Research Hospital treats thousands of children every year who are battling cancer and other diseases. The hospital treats all children, regardless of a parent's ability to pay, so they rely on fundraising efforts to fund their research and care. The family dental practice has 11 locations and is donating $10 to the hospital for every child who completes a dental exam and cleaning by the end of September, which also happens to be Childhood Cancer Awareness month.

"We urge parents to schedule those check-ups soon, and help us to help other children in need," says Vicky Khawaja.

1st Family Dental has 10 dental offices in and around Chicago, so parents should locate the nearest office and schedule a checkup soon. The dental office was founded under the vision that everyone deserves affordable, high quality dental care, whether or not they happen to have dental insurance. They offer a number of dental care services from general dentistry and cleanings to pediatric dentistry, dental implants and other oral surgeries, and orthodontics. The practice treats all patients from pre-school to senior citizens.

For patients without insurance, the practice offers a number of discounted services, in addition to financing options through Care Credit, Citi Health Card, and the Help Card.

The office urges parents to book their children's dental exam soon to check for cavities and other issues. The dental practice wants the children to head back to school in the best possible oral health. At the same time, parents will be helping 1st Family Dental in providing funding for the children of St. Jude Children's Research Hospital.

More about the dental practice, including the kinds of insurance accepted and their fundraising efforts can be viewed on their official website - 1stfamilydental.com.
