A representative for TNL Placentia CA says, "Whenever there is a global health crisis, you can always expect it to have an impact on the economies of countries around the world. Take the recent coronavirus outbreak in China that has now spread to other countries. Its impacts are now being felt across the United States in several forms, one of which is the fact that mortgage rates are being severely affected."

Information shared by TNL Placentia CA shows that yields on US Treasuries are falling to their lowest levels since October, caused by the fact that investors are retreating to safe-haven asset classes amid an increase in reported cases of the coronavirus around the world. According to a national survey of mortgage lenders by

Bankrate, this increase in bond-buying could actually send mortgage rates even lower than the current rate of 3.7% for 30-year, fixed-rate loans, which is already too close to the record low set on the 5th of December, 2012 at 3.5%.

Further, TNL Placentia CA's data shows that the 10-year Treasury yield, which is closely related to mortgage rates, fell by 0.07 percentage points recently to 1.61%, according to Bloomberg. There has also been a drop in stocks, with the Dow Jones Industrial Average plunging more than 400 points.

TNL Placentia CA's spokesperson says that investors around the world are worried that economic challenges posed by the illness will severely impact the global economy in a manner that is hard to recover from. They comment "If things keep going the way they do, people around the world will find that they are facing some really tough times. This crisis will impact a lot of jobs, and that can lead to a lot of financial hardship for the common person. People across America may find themselves in emergency situations where they need funds quickly. In such a situation, we want you to know that TNL is here to help."

TNL Placentia CA, like TNL's other locations across the country, provides residents of Placentia and the surrounding areas with a quick and easy method to get the money they need using their car titles as collateral.
