

Beneleaf Announces Findings Of Research And The Observed Benefits Of Gold Masks

August 21, 2015

August 21, 2015 - PRESSADVANTAGE -

Beneleaf, a health and beauty company in Hawthorne, CA, has completed an extensive piece of research into the benefits of gold masks. As a company, they offer a set of five gold masks, and they wanted to make sure that their customers could not just enjoy, but also understand the benefits of these products. Their goal is to enable everybody to have the most beautiful and healthy skin.

Alyssa Sullivan from Beneleaf says, "A lot of research has already been done on the benefits of gold for our skin. We know that gold has been used for its restorative properties since the times of Ancient Egypt, and this practice continues today. Our gold masks harness all these benefits, allowing people to have healthy, radiant skin."

The research conducted has shown ten benefits of using gold in skin care. Firstly, it helps to reduce the appearance of spots, fine lines and wrinkles. Secondly, it stimulates the cells of the skin. Next, it prevents premature aging of the skin. It also helps to lighten complexion and it slows down collagen depletion.

Gold also helps to treat sun damage and even skin allergies. It has also been found to have anti-inflammatory

properties and it is able to enhance the skin's elasticity. Finally, it makes the skin glow. Considering all of these benefits, it is no surprise that the Ancient Egyptians were known for their beauty and radiance.

The Beneleaf gold collagen mask can be obtained through the company website and Amazon, where it has already received numerous positive reviews. "I'm loving these gold collagen eye masks by Beneleaf! They feel so nice & soothing under the eyes, I like to lay back on the couch with them on, & it just feels so nice & cool too that I don't even want to take them off!" says Nicole. "They help really well with puffy, tired looking under eyes!"

Beneleaf wants to ensure everybody is able to enjoy the fantastic benefits of gold. Since the majority of people do not have the resources of Queen Nefertiti and hence cannot bathe in pure gold, their collagen masks provide a fantastic alternative.
