Rockwell Trading's Truth About Trading Podcast Celebrates Episode 100

March 19, 2020

March 19, 2020 -
Rockwell Trading has just added to their lengthy podcast list in their ?Truth About Trading? series. This is a milestone podcast as it marks the company?s 100th podcast episode. The ?Truth about Trading? podcast series will soon pass another milestone too when it hits the 30,000-download mark; they currently stand at 28,895 downloads and counting. Rockwell Trading is proud of this symbol of longevity and popularity that few companies that favor using a podcast platform ever achieve.

Markus Heitkoetter, CEO and Founder of Rockwell Trading talked more about this milestone podcast by saying, ?When we first started out using podcasts to get our messages across to traders, we had no idea they would be as popular as they have turned out to be. We absolutely could not be more pleased with the way this message medium has worked for us. It was chosen by us because we felt people would learn more from seeing and hearing than just by reading words on a page. Due to our podcast and YouTube video success, it has given us extra incentive to keep producing quality podcasts that help traders get better results with their stock and option trades.?

Heitkoetter, who is a leading trading and investment expert and the driving force behind Rockwell Trading,

created the podcasts to share his wealth of knowledge on the subject. His expertise in trading has turned him into a self-made multi-millionaire. He says that if he can do it then so can those who take his expert advice and combine it with other expert trading knowledge that they have learned. The company founder says his podcasts are meant for anyone that is interested in stock trading, options trading, investing in real estate or wants to use his podcasts as the motivation to make more money.

Podcast Episode #100 was titled ?The Most Important Questions to Ask Yourself ? Part 3?. It was a follow up to podcast episodes #97 & #99 which contained the first two parts of this important trading topic. The topic question in this particular episode focused on ?How to hire a mentor when you don?t have money to hire him?. In the podcast, Heitkoetter discusses how he used credit cards and other means to pay for the important mentorship he needed to become successful at trading. He says in the podcast that traders investing in mentorship is key if they want to learn how to trade more effectively. Other podcasts in the series had such titles as ?How to Start Trading With 500 Dollars?, ?How Long Does It Take to Learn How To Trade Stocks?, and ?How To Take Advantage Of Stock Market Crash?.

In addition to podcasts, Heitkoetter also leads several trading Bootcamps for the company. These Bootcamps have been conducted by him all over the globe. He says they are an in-depth Bootcamp where he teaches time-tested and proven strategies for trading stocks and options. There is no prerequisite knowledge for the course and Heitkoetter says they will benefit an attendee even if they have never made a single trade in their life. These Bootcamps are designed to help attendees formulate a strategy that will give them the ability to have a better than average chance to consistently pull income out of the investment markets. Several Bootcamps are being held in the month of March in and around the Dallas, Texas area. Heitkoetter went on to add that these trading Bootcamps are offered free of charge to those that attend them but he advises people to reserve their seats ahead of time because space is limited and fills up fast. The company founder says this can be done by clicking on a link on their website that will allow someone to claim a complimentary ticket to one of the Bootcamps.

For those that want to learn how to trade options, stocks, and do other forms of investing, Heitkoetter invites them to listen to his free podcasts or to sign up and attend one of his free live trading Bootcamps.
