Chicagoland Fireplace & Chimney Restoration Provides Naperville Chimney Repair

March 17, 2020

March 17, 2020 -

IL based Chicagoland Fireplace & Chimney Restoration - Naperville would like to make homeowners in the area aware of the company's chimney restoration and repair services. With years of experience and a team of dedicated chimney repair specialists, Chicagoland Fireplace and Chimney Restoration can help with all kinds of chimney related issues.

Since 1996, the company has been providing professional chimney repair and maintenance to homeowners all over the Greater Chicago Area. "Our reputation speaks for itself," says the company. "We also revel in the local customs, traditions and history of the areas we serve. Providing our customers with the best possible service, we pride ourselves in doing our jobs exceptionally well and in a timely manner. This is probably why we have such an extensive customer base. Much of our business comes from customer referrals."

The chimney repair service's repair technicians' knowledge of the area is put to great use in their work across the Chicagoland area. To provide their customers with the best possible service, the company makes it a point to ensure that every customer receives the best possible service. Over the course of their time in the

field, they have built a reputation for bringing extensive knowledge and experience to each and every project. The company's team strives to give their customers multiple options when it comes to what they can have done to their home, be it a complete fireplace restoration or simply a chimney sweep to eliminate a fire hazard.

"Some of our competitors rush in, complete a job and leave as quickly as they came," the company says. "We are different. We spend extra time with our customers to ensure they know how to operate their fireplace(s) in a safe and efficient manner. We also spend the time to get to know our customers and their families personally so we can better determine what their needs actually are. We never want to "sell" a customer a product or service they do not need. We prefer to determine what they actually want and need and then make sure we provide the highest quality version of this."

The company's technicians have been certified by the Chimney Safety Institute of America. Most importantly, they boast have extensive field experience and can fix any issue no matter what the issue or problem is. They have likely encountered any and all problems one may have before and so can now fix it quickly and easily. The biggest concern that the technicians at Chicagoland Fireplace and Chimney Repair have is safety. Fireplaces can be a central focal point of the home as well as a great source of warmth and comfort. However, they can be very dangerous if not installed or maintained properly. This is why any professional chimney service will make sure to maintain the highest standards of safety when working on a project.

A number of clients have left great reviews of the company on a variety of platforms. "After two years and several companies later, Johnny from Chicagoland Fireplace and Chimney Restoration Co. came to our rescue on a gas log fire that wouldn't stay lit," one review says. "Not only did he fix our problem, but he went above and beyond and safely sealed up a hole to the outside that had been letting in the cold winter air. Johnny was professional, honest, friendly and extremely informative. As if that wasn't enough, he called us the next day to ensure the fire was still working and to check to ensure our family room was warm enough. Would definitely recommend Johnny to anyone in need. Thanks, Johnny!?"

Another client shares that, "Nick's crew tuck-pointed large areas on an outside wall of a 100-year-old four story walk-up. Visually, the work is stunning—you can't tell anything has been done in a hundred years! Technically, my "peeps" say Chicagoland Fireplace & Chimney Restoration did a quality job that should withstand decades of weather."
