

McHenry Roofing Offers Skylight Installation Service in Baltimore, Maryland

March 11, 2020

BALTIMORE, MD - March 11, 2020 -

Baltimore, MD - McHenry Roofing is currently seeking to assist homeowners in the Baltimore area who are struggling with leaking skylights that need repair. Their team of professional roofers are able to identify issues with older skylights that many other local roofing companies miss. Whether the skylight requires a full replacement, or a simple line of caulk will do, McHenry Roofing can schedule a visit to evaluate any home in the Baltimore area.

McHenry Roofing discussed this service in a recent Google My Business post, where they say, "A leaky skylight is a major threat to a roof's integrity. Rain water can seep into the structural beams, causing swelling and a potential for dry rot. While the damage may not be obvious at first, mold and other spores can cause health issues for those living in the home. Hiring a professional roofer annually to check the sealing and flashing around each skylight is common sense home upkeep." The roofing experts at McHenry Roofing say that a skylight can begin leaking due to a number of different issues. When Baltimore homeowners ignore regular maintenance these issues can become more common. McHenry Roofing adds that many homeowners in the Baltimore area do not consider the fact that skylights are items that require regular inspection like other parts of their houses. A skylight that doesn't receive proper maintenance is guaranteed to begin leaking at some point in the future. This may be because the flashing is damaged, the frame is corroded, or the skylight is improperly installed. Regardless of the reason, inspection and maintenance at the right time can save homeowners from having to spend large amounts of money on repairs.

Skylight damage is commonly the result of wind or a seasonal storm. Baltimore homeowners who find themselves with a leaky skylight often find themselves with roof and window damage as well. McHenry Roofing prides itself in being a one stop shop for all roofing and skylight repairs and replacements. Whether it is a flat or pitched roof, McHenry Roofing can fix the problem at an affordable price.

The roofers at McHenry Roofing have earned a distinguished reputation in being the most trusted roofing company in the Baltimore metropolitan area. They offer a variety of different skylight options to their customers and can assist in recommending brands that they know will last for years to come. In a recent review, Jessic C. writes, "McHenry Roofing scheduled me quickly and showed up on time. Their initial estimate for a new skylight was reasonable and they were able to have it in stock within a week. Their team was professional and made me feel comfortable that they were the ones working on my roof. Whenever I had a question they were happy to give me an answer that satisfied all of my concerns. I recommend them to all of my friends in Federal Hill."

The areas covered by McHenry Roofing include Federal Hill, Roland Park, Locust Point, Brooklyn, Highlandtown, Bolton Hill, Pigtown, and many other surrounding Baltimore neighborhoods. Recently, they announced that they are scheduling roofing services for Spring 2020: https://www.pressadvantage.com/story/34334-local-baltimore-roofing-company-now-scheduling-roofing-services-for-spring-2020.
