

Precision Counters & Tile Provides Cambria Quartz and Marble Countertops In Kansas City

March 23, 2020

March 23, 2020 -

Precision Counters & Tile, a Kansas City, Missouri based supplier and installer of countertops, would like to announce that they have Cambria Quartz Countertops in stock. The store supplies Kansas City, Overland Park and the surrounding communities, and anyone in the area that may be interested is encouraged to visit and have a look at what they have in stock.

Cambria® USA produces high quality, beautiful countertops that offer a level of depth and vibrance rarely found in countertops. Cambria is produced in the United States, which means that their countertops are a greener solution than some of the other countertops on the market. As Cambria says, "When it comes to style, nothing can compare to Cambria. With a large part of our quartz sourced from a unique mine we own, every design is guaranteed to reflect stunning features you won't find anywhere else. Our expansive design palette offers more than just a pretty face. Look a little deeper, and you'll find the uncompromising quality and unbeatable performance that make Cambria the perfect choice for life."

Precision Counters & Tile installs Cambria countertops along with a range of other countertops. Having been in the business for years, the company's countertop installation experts know how to get one's quartz counters in place quickly and safely, and they also know how to minimize the possibility of damage. The company has installed almost every countertop in the industry, and Cambria consistently ranks among the top brands in terms of the beauty of their designs. Their full warranty and huge selection of colors and designs make Cambria quartz countertops some of the best countertops that Precision Counters & Tile's experts have had the pleasure of installing.

Anyone looking for a countertop installation solution in the Kansas City area will be quite pleased with the high standard of work Precision Counters & Tile delivers. Thanks to their highly qualified and experienced team and some of the best equipment and materials available, Precision is the top countertop installer in Kansas City and its surrounding areas. The company uses a turn-key approach in every project, which means they do the whole job for the client, and one can count on them to be prompt and reliable. They also clean up thoroughly after themselves on a regular basis, which is a fact that many of the company's

clients have been known to comment on.

The countertop installer often receives excellent reviews from pleased customers on a number of platforms, including Google Maps. One 5-Star review of the company states, "I am in love with my kitchen! Dave was so kind to drive to the country and help me with a refresh of my kitchen. He has been so easy to work with from day one! Even from our first phone conversation, he made my choice easy?I knew he was perfect for our job! He completed our job in three days. We hosted Thanksgiving with a large family of 30, and everyone was so amazed with the transformation. We replaced countertops, the sink and faucet, and added back splash for an overall refresh! Special thanks to Dave for being willing to drive more than an hour outside of KC. We are really enjoying our kitchen!?"

Another client on the same platform shares that, "My sister in law recommended Precision Countertops & Tile to me, and I'm glad she did. Dave walked us through the process of selecting the new kitchen countertops, backsplash, sink and faucet. Everything went smoothly, from the demo of all the old outdated stuff to completion. Ryan did an excellent job of installing the tile backsplash and faucet, and I love it! Dave was there every step of the way, making sure everything was done to my satisfaction. Dave and Ryan cleaned up any mess each day, which was a big help. I would gladly and highly recommend these hard working, professional and good-natured guys to anyone who wants to freshen up their kitchen with new countertops and backsplashes."

For more information on either Cambria or the Overland Park countertop installers visit their respective websites and online resources. Interested parties are welcome to reach out to Dave Hardin of Precision Counters & Tile in order to follow up on any further inquiries.
