

Belton USA Offers a New Hearing Aid in Gainesville, GA

March 18, 2020

March 18, 2020 - PRESSADVANTAGE -

Gainesville, Ga. ? Belton USA is highlighting their latest technology in hearing instruments - the Belton Boost Ultra?. This product is a hearing aid in Gainesville, GA that is ideal for those that live with severe to extreme hearing loss. The hearing aid offers top of the line technology and allows audio streaming directly into the hearing device from most iPhone, iPad and iPod touch devices. The product is expected to be the next big thing in the world of hearing care.

The Belton Boost Ultra? is offered as a Behind-The-Ear (BTE) hearing aid and offers HPF80 NanoBlock protective coating which protect the device from a range of common detriments to the device's delicate components. Additionally, the device offers built-in Tinnitus Breaker technology as well as remote care. Belton Boost Ultra also has telecoil technology built in which enable the wearer to sync their hearing aids to sound systems in multiple settings, such as museums, theaters, cinemas, care centers, auditoriums and more.

Beltone USA is a hearing care center in Gainesville, GA that offers the Beltone Boost Ultra? in store to have a chance for those who wear hearing aids to upgrade from their current aids. Beltone Boost Ultra? lets users have a chance to finetune their device in the comfort of their homes as opposed to having to come to the clinic every time by offering an easy to use smartphone app.

Beltone?USA in Gainesville, GA specializes in free hearing screenings along with a multitude of hearing aid options.?The professionally trained Hearing Specialists are caring and dedicated to find the best fit for each patient's unique needs?in order to?improve their quality of life. Comprehensive hearing screenings are offered to patients for free in their local office.
