

An Ear Care Center in McDonough, GA Announces Their New Hearing Aids

March 17, 2020

March 17, 2020 - PRESSADVANTAGE -

McDonough, Ga.- An ear care center in McDonough, GA is highlighting their newest product in their line of advanced hearing aids, the Beltone Boost Ultra?. This is a hearing aid that is ideal for those that have severe hearing loss and allows for direct streaming from iPhone, iPad and iPod touch devices into the device itself. This is the next biggest thing for the world of hearing aids.¹

These Behind-The-Ear (BTE) hearing aids come equipped with tinnitus breaker technology, HPF80 NanoBlock protective coatings and remote care. The HPF80 NanoBlock coating protects the hearing aid from dirt, moisture, humidity, earwax and skin oils. Elements that can, over time, damage hearing instruments' circuitry and reduce effectiveness of the hearing aid. These hearing aids were designed to help make patients' lives easier.

Beltone USA is a leader in hearing aids in McDonough, GA that presents this product alongside an in-store to offer a chance for patients to exchange their older hearing aids for the new upgraded ones. Beltone Boost

Ultra allows users to finetune their devices at home as opposed to having to visit the clinic each time by offering an app for their smartphones.

Beltone USA in McDonough, GA specializes in free hearing tests alongside many other hearing aid options. The professionally trained hearing specialists are caring and dedicated to assisting patients in finding the best fit for their unique needs. Each comprehensive hearing screening is offered for free in the office. For more information about Beltone USA or the Beltone Boost Ultra?, call their McDonough office at (770) 957-9074 or visit them online at www.beltoneusa.com/mcdonough.
