

Dunlor Releases GPS Tracker For Asset Protection And Prevention Of Stolen Car, Truck, Trailer Or Boat

August 25, 2015

August 25, 2015 - PRESSADVANTAGE -

Dunlor, a company based in Lindfield, has announced the release of their latest product: a GPS Tracker that tracks the location of stolen property, such as cars, trucks, trailers, boats, and other assets. The company has announced the release of the new product via Dunlor's website at <http://jeevesgpsracker.com/>.

The GPS Tracker is made to accurately monitor the movements and location of moving objects. The GPS Tracker works best for vehicles, and trailers. Parents can also use the GPS tracker for their children whenever they enter a high-risk location, such as malls and amusement parks. On <https://www.facebook.com/GPSTrackersnow>, company representative Roger shares: "At Dunlor we are always looking for the best solutions for everyday problems. It's pretty common for us to keep track of our most prized possessions. With our GPS Tracker, we give our customers the peace of mind they deserve, because it tracks the location of our customer's belongings and assets."

Dunlor's product is compact, waterproof and has a rechargeable battery to ensure prolonged usage. The GPS Tracker utilizes the Assisted Global Positioning System (A-GPS), which uses satellites in conjunction with mobile networks to optimize the GPS Tracker's locating abilities. The product includes a miniaturized cell

phone for communication anywhere there is mobile coverage to deliver location updates directly to an individual's smartphone.

The GPS Tracker provides 100% accurate real time GPS tracking, and has a two week battery life. The product is lightweight and portable, weighing only 1.5 ounces and is small as a matchbox. The tracker can track movement and current location on any internet connected device and mobile phones. Using the product only requires a push of a button in order for tracking to begin. The product can also provide 24/7 realtime tracking. "The reports from the tracker can be followed on any internet connectable device," Roger explained. "The MyLocate platform provides most reports, and some apps are currently available for Android and iOS users," he said.

Dunloor's GPS Tracker continues to receive positive reviews as a result of the product's accuracy and usefulness. At present, the company continues to develop new products that will help consumers find solutions to common problems.
