

## Tallahassee Hearing Aid Store Launches New Hearing Product

*March 17, 2020*

March 17, 2020 - PRESSADVANTAGE -

Tallahassee, Fla. - After years of innovating and breaking new ground, a Tallahassee hearing aid store is introducing the latest in their line of advanced sound-processing technology - Beltone Boost Ultra. The hearing aid is designed for those living with severe to profound hearing loss who prefer a Behind-The-Ear (BTE) style of hearing aid and is expected to become the industry's most comprehensive hearing solution.

The Beltone Boost Ultra offers the wearer a range of features such as built-in Tinnitus Breaker technology, remote care for remote hearing aid adjustments, and is compatible with Beltone's Direct Line wireless accessories that allow for sound streaming connectivity directly from most mobile devices including Android and iPhone. This will allow the wearer to stream their audiobooks, shows, and music choices as they wish. Additionally, the device offers improved impulse noise reduction to reduce the jarring effects that brief, loud noises can create for those who wear hearing aids in Tallahassee.

Beltone Hancock Hearing Care Center specializes in hearing loss and state-of-the-art hearing solutions. Their professionally trained Hearing Specialists strive to find the best fit for each unique individual with a focus on improving the quality of their lives and their hearing. Comprehensive hearing screenings are offered for free in their office in Tallahassee as well as at Beltone offices across the United States. For more information about Beltone Hancock Hearing Center or the Beltone Boost Ultra, schedule an appointment via phone at (850) 329-6073 or visit their website at [beltonehancock.com/tallahassee](http://beltonehancock.com/tallahassee).
