Avenue Artwork Launches New Artwork Craft Prints

August 27, 2015

August 27, 2015 -
Avenue Artwork, based in Akron, OH, is proud to announce the launching of a new range of artwork craft prints to the market. The company has always focused on providing true quality and craftsmanship, but in an affordable manner. This is reflected in its newly introduced craft prints.

"We offer a range of options in terms of 3D art and other custom prints," says a representative from Avenue Artwork. "Our goal is to make sure people can have physical copies of their favorite photographs, presented in such a way that they truly pop out. We are fully committed to ensuring this type of work is not just of the highest possible quality, but that it is affordable as well."

The company believes that all people create daily photo memories. With the advent of smartphones and other mobile technology, it is now easier than ever to take photographs of just about anything. Unfortunately, the majority of these photographs never make it past the digital phase. They are shared on Facebook, emailed to friends of uploaded to Snapchat, but they are never really enjoyed again.

For Avenue Artwork, photographs should be displayed and seen again and again, because they have captured a moment, a memory, and made it eternal. "Our goal is to help you celebrate those precious moments in tangible, permanent expressions," adds the spokesperson. "We achieve this through exceptional printing and hand crafted products. If you've always dreamed of having amazing artwork on your walls and tried 'bargain' printers only to be disappointed, then we encourage you to come to us instead."

The company, with website at avenueartwork.com, offers canvas and metal prints, framed prints, 3D art, wood prints, photo tables, and a bunch of fun stuff that are completely unique to the world of printing. Many of these products have been designed specifically for the company by one of their artisans. These include things such as photo shelves, image blocks, framed wood prints and framed fine art prints. They encourage anyone to contact them to discuss their personal needs and to see what sort of special creations they can come up with.
