

The logo for Land Solutions Network features a stylized 'LSN' monogram. The letters are formed by thick, slanted bars in shades of orange and dark brown. Below the monogram, the words 'Land Solutions Network' are written in a bold, dark grey, sans-serif font.

# Land Solutions Network

## **Land Solutions Network Launches Website For Property Owners Who Need To Sell Land Fast**

*March 25, 2020*

March 25, 2020 - PRESSADVANTAGE -

Johnstown, Pennsylvania-based Land Solutions Network has just launched its national website which can help people to sell land in every state in the United States. The website has been built with the purpose of offering anyone who needs to sell land quickly and hassle-free another option instead of the traditional means of selling.

Land Solutions Network invites anyone who may want to sell an inherited or unwanted property to visit the website and get the necessary information. The website is easy-to-use and offers an easy solution for those who may want to avoid wasting time doing mounds paperwork and having to pay the legal fees that are part of selling a property.

Using the tools on the website is very useful to people who want to sell land in their local area without having to go through a real estate agent. It can be stressful when dealing with the sales process and having to negotiate a price and then filling out all the paperwork that is needed.

The Land Solutions Network will provide owners who want to sell their property an offer of cash that doesn't have all the added fees. We also take care of closing costs and paperwork. Closing on the date that the customer wants also helps to eliminate many of the hassles that the regular sales process consists of. Sometimes, it can be all done in as little as ten business days or any time the customer wants to close, depending on their availability. We offer one of the easiest and fastest ways of selling property in the local area.

When visiting the website at <https://landsolutions.network>, the company explains how it goes through the process. Once we determine if the property meets the criteria for purchasing, we will give the owner a fair offer either by phone or by mail. The property owner can ask any questions as well. Once a price is agreed upon, we will provide the owner with a simple purchase and sales agreement. The property owner will complete and sign it. We then settle on a closing date so that our team of attorneys and title experts can get the closing documents prepared.

#### Land Solutions Network Buys Land For Cash:

The company specializes in purchasing residential vacant land anywhere in the United States. The company has a team of professionals that have the necessary experience. Therefore, the process goes smoothly for all parties involved. But Land Solutions Network doesn't only buy properties. To find acreage, homes and lots at wholesale prices, go to the Land Solutions Network website at <https://landsolutions.network>.

A great benefit of dealing with the Land Solutions Network is that anyone who is interested in purchasing a property can get the land parcel at a great price since it's ready to sell. The company committed to finding their clients a property that best fits their needs. Whether they are buying a home, building their dream home, or maybe a cabin for weekend and holiday getaways, Land Solutions offers a large selection of properties that are currently on the market and waiting for the right owner.

When visitors use the platform on the website, they will have exclusive access to homes, acreage and lots all at great prices. The client saves, on average, about 15% to 50% of what is generally charged in the current market value when they buy from the Land Solutions Network. The company goes out of its way to ensure that clients are completely satisfied when buying a property.

The Land Solutions Network also has owner financing on certain land parcels and their closings are so simple and fast that they are often done within 14 days. They are providing the real estate market with a novel way to buy which ensures the customer is the number one priority.
