

Stunning Smiles of Las Vegas Offers Invisalign in Las Vegas NV

April 07, 2020

April 07, 2020 - PRESSADVANTAGE -

Stunning Smiles of Las Vegas, based in Las Vegas, Nevada, has announced that they are proud to offer Invisalign clear aligners to help people feel better and more confident about their smile. Invisalign® is an aesthetic clear aligner that is non-invasive and virtually invisible. Patients have actually provided feedback that they could notice that their teeth were moving and straightening even on the first day.

Dr. Richard A. Racanelli, DMD, owner of the Las Vegas dental practice says, "At Stunning Smiles of Las Vegas, we are committed to providing our patients with the best dental care that exists today."

The Invisalign clear aligners offer a number of benefits for patients. These include lesser dental office visits, up to two times faster results, no unnecessary pain, ease of insertion and removal, and flexible pricing options. Other advantages include eating foods without worrying; the fact that Invisalign fits just right over the teeth; ability to play sports without broken wires; the fact that Invisalign is virtually invisible to the eye; the fact that Invisalign costs as much as braces or even less; and having a smile with self-confidence.

Dr. Richard A. Racanelli points out that those who are interested in Invisalign can call them to schedule a free oral consultation. He also would like to warn everyone that it is not safe to buy from companies offering aligners online. There are a lot of risks involved in undergoing a complex medical procedure such as aligner therapy without the personal supervision of a professional and experienced dentist. There's more to treating a smile than just simply moving visible parts of the teeth. Dr. Racanelli points out that they can help patients by offering a number of flexible payment options, including no interest or low interest third party financing. And they can also work with most dental insurance benefit providers.

Dr. Racanelli, the dentist in Las Vegas, NV residents can go to, also offers various cosmetic dentistry services, including porcelain veneers and teeth whitening. Dental veneers are used to help lengthen, straighten, and whiten teeth to provide the result, which is a beautiful smile and a more comfortable bite

position. A dental veneer is a customized thin shell of porcelain that is positioned in front of the tooth. Instead of encompassing the whole tooth, a dental veneer covers the visible part of the tooth, thus, preserving a substantial amount of the natural tooth structure. Porcelain veneers are non-porous and therefore, will not stain. Plus, they are durable and non-abrasive to the opposing teeth. They can be used to correct broken or chipped teeth, teeth gaps, severe tooth discoloration, pointed or unusually shaped teeth, and smaller than average teeth.

Stunning Smiles of Las Vegas also offers in-office teeth whitening. Their experienced dental team will utilize the latest and most revolutionary teeth whitening system to help the patient have a bright smile as fast as possible.

They also offer KöR Whitening, which is internationally renowned as the most effective teeth whitening system. It can be customized to varying degrees of stained teeth and it helps avoid the sensitivity that is often present in other teeth whitening systems. They also offer in-home tooth brightening kits that are made up of a teeth whitening gel and trays that allow the patient to perform the process at home.

Stunning Smiles of Las Vegas also offers dental implants for broken, chipped, or missing teeth. And because the new dental implant will look and feel like a natural, healthy tooth, patients would be able to speak and eat normally like they did before when they had their natural teeth. Furthermore, unlike dentures, there's no need to remove the dental implants in order to eat or clean, and they are intended to last a lifetime.

Those who are interested in Invisalign and other cosmetic and general dentistry services can take a look at the Stunning Smiles of Las Vegas website at <https://lvstunningsmiles.com/>, or contact them on the telephone or through email.
