

Schlicher Orthodontics Offers Virtual Orthodontic Consultation

April 20, 2020

April 20, 2020 - PRESSADVANTAGE -

Schlicher Orthodontics, a Pleasanton, California based orthodontic clinic, is pleased to announce the availability of their virtual orthodontic consultation services. The service is taking online consultation to the next level by incorporating a live meeting into their existing sessions. Other orthodontists simply reply with a price, but Dr. Schlicher has decided to take it a step further and actually offer a virtual meeting with the patient and establish the goals and overall treatment plan. More on the virtual orthodontic consultation service can be found at <https://www.pleasantonortho.com/virtual-consultation/>.

"Interested in orthodontic treatment for your family but don't want to leave home?" asks the clinic. "A virtual consultation is perfect for you. We are very excited to launch a virtual platform where we can assess your goals, your treatment needs and the most effective plan of action for you from the convenience of your home or workplace. You can expect the same quality of care you would receive from visiting our office, and you will leave with a preliminary treatment plan or an idea of the appropriate time to start treatment, a basic fee estimate and your possible insurance benefits."

The virtual assessment process is quite simple, with clients needing only to follow four simple steps. The first

is to watch the video on the orthodontist's site, following which the patient can schedule a convenient time, take pictures of their teeth (and email them) and then finally meet on Zoom at the appointed time. The aim of the virtual consultation service is to provide a quick, convenient option for those who need orthodontic attention but are unable to visit a clinic for one reason or another. Dr. Schlicher has special cameras and mirrors for imaging teeth in the office, and it is impossible to get perfect quality images from one's phone—but the images the patient provides on their own offer a great starting point for their orthodontist. The clinic's Facebook page can be found at <https://www.facebook.com/pleasantonortho>.

At Schlicher Orthodontics, they believe in their work. As the clinic says, "We believe in what we do. Each and every day, we see how happy our patients are with their new smiles! Serving Pleasanton and the entire Tri-Valley with state-of-the-art orthodontic care, Dr. William Schlicher truly appreciates the opportunity to help children, teens and adults love their smiles. It is more than just orthodontics to us; it's about engaging with our patients in a way that creates a practice where patients feel listened to, respected and encouraged. Our practice prides itself on integrity, ethics and putting our patient's best interest above all else."

The practice has received excellent reviews from a large number of patients on multiple platforms. One patient, Kendra, says, "I can't say enough great things about Dr. Will and the entire staff at Schlicher Orthodontics. Dr. Will takes care of the entire family. We are a family of six, and Dr. Will has treated everyone with great care and respect. He and the staff make each patient feel comfortable the minute they walk through the door. He also is very aware about the cost of treating all of us and has allowed us to have a payment plan that works for our family. What a relief for us! We are so thankful for Dr. Will and the entire staff at Schlicher Orthodontics and highly recommend them!"

Another client, Christina, says, "Dr. Will has seen both our girls and will be seeing the youngest, I'm sure, within the next few years. I can't rave enough about the staff, his professionalism and just what a great place this is for our children. I have a child with extreme anxiety about anyone touching her teeth—Dr. Schlicher and his staff were overwhelmingly supportive and put my daughter at ease. I couldn't believe it. After the first visit, it was like a new child. We are truly thankful to have found such a special ortho!! A+ all the way!"
