TLE Helps Residents with Relief from COVID

March 30, 2020

March 30, 2020 -
Title Loans Express (TLE) has announced that they are helping US residents get relief from the financial pressures resulting from the COVID crisis. It is evident from the large number of people who have filed for unemployment benefits that they are feeling the intense financial pressure from the effects of the COVID outbreak. But because these benefits may not be enough to help the residents avoid the situation where they don?t have sufficient funds, TLE is also offering help by providing financial assistance. Through TLE, people may be able to use their car title to get much needed cash.

A spokesperson for TLE says, ?We are here to provide convenient, fast, and easy financial help for those in need of cash right now. So how does this work? If you?re the owner of a vehicle and you have the title to your car, you are able to get some financial assistance from us. We aim to make the application process as simple as possible for our customers. Give us a call or apply online and we?ll immediately start processing your request. Our customer representatives can even give you a quick estimate of how much you can get, and you?ll find out very quickly whether or not your application is accepted.?

There are three simple steps to take when filing an application for the financial assistance from TLE. First, the customer can give them a call or fill out an online application form on their website. A customer representative will answer any questions about the process and people can get approved in less than 15 minutes. The second step is to submit certain documents, such as the car title, ID, proof of residency, proof of income, and vehicle registration and insurance. And the third and final step is to receive the amount, which can be wired to the customer?s bank account or it can be accessed via MoneyGram. Those who would like to know more about this can check out the TLE website and learn about title loans at https://www.titleloansexpress.com.

The amount that will be available will depend on the equity value of the car. If the car has sufficient value, at least $2,500 is guaranteed. But in order to get a proper estimate, customers are advised to call TLE and talk to one of their customer representatives. And even if the car is old, it is still possible to get some financial assistance, especially if it is a classic vintage car and is in good condition. And as long as the car is 1996 or newer, TLE may be able to provide some financial assistance based on the car?s resale value.

Meanwhile, even people who are unemployed may be able to apply for the financial assistance, as long as they have some kind of verifiable income that is being expected, such as social security or disability. And an important advantage of this type of financial assistance is that it is not based on the applicant?s credit score. Furthermore, when customers make payments for the financial assistance that are on time, they may be able to enhance their credit score.

Also, TLE can offer financial assistance even through a car that is a salvage vehicle but has sufficient equity. As long as the vehicle has enough value in it, there will be no problem for people who are applying for financial assistance through a salvage car. In contrast, banks will not offer the same for a salvage title. They will not even offer financial assistance for people who have a low credit score, have a poor financial history, or have some negative marks on their credit report. This is why TLE can help many customers who have been rejected by banks.

Those who are interested in the financial assistance that TLE may be able to provide can check out their website or contact them on the phone. And those who would like to know more about the company can check out their press releases through their media room at https://www.pressadvantage.com/organization/title-loans-express.
