

TLE Helps Los Angeles Residents

March 30, 2020

March 30, 2020 - PRESSADVANTAGE -

In today's uncertain times, it is important to know that there is somewhere to turn for assistance. Title Loans Express (TLE) stands ready to help Los Angelinos with short-term financial challenges as this page shows: <https://www.titleloansexpress.com/locations/title-loans-south-los-angeles/>.

Business closures are happening now from Redondo Beach to Santa Monica pier and well beyond. That has affected most people's incomes in California to one extent or another. But that doesn't mean that everyone is on their own. Title Loans Express prides itself on being a company that goes the extra mile to assist people when no one else can or will do so.

Steven Pleske, a spokesperson for Title Loans Express said, "Often people come to us after they've already tried two or three other ways to solve their problem. They are expecting us to say no but most of the time we can say yes if they have a clear title for a vehicle and if they are the only owner. On the other hand, some people think that banks are their only option if they have a sudden financial need, and then by chance, they find our company or get referred by someone they know. Customers appreciate how quickly we can be to act on their requests and to get them funded. We know time is of the essence for the people we are serving."

To take advantage of what Title Loans Express can do for a customer for title loans in Los Angeles., The helpful webpage at <https://www.titleloansexpress.com/how-it-works/> explains its simple system. An online form is available there to fill out as well. Conversely, customers can call the company and a staff member will take the application on the telephone for title loans in Los Angeles.

In order to make the application and finalize the transaction customers will need their photo ID, the title or "pink slip" of their automobile, proof of income and residency and proof of insurance and registration for the vehicle. It is important to note that Title Loans Express does work with people who are on Social Security or Disability benefits, so it's not proof of employment that is needed - it's proof of income.

Mr. Pleske said that many people don't realize that it is possible to get funding with a vehicle that is still being financed. "People also think that they need to have a really good credit score to work with us, and

that's not the case," he continued.

The process is very quick, very often the loan officers will tell customers roughly what the amount is that they might be eligible for and a decision sometimes can be made as quickly as within about fifteen minutes. Once the full process is completed, approved, and all documentation is brought to Title Loans Express, funding can be sent directly to a customer's bank account, or it can be accessed through MoneyGram.

On the page at <https://www.pressadvantage.com/organization/tnl-express-south-la>, the process is laid out in a step-by-step process. The phone number to call for assistance or more information in the South Los Angeles area is (424) 282-3718. There is also a live chat support function on the page as well as a contact form that prospective customers can fill out to get things started. A map and directions to get to the Title Loans Express location are also available there.

Laura Gutierrez, a customer of Title Loans Express said, "Myself and some of my friends and family have needed to take advantage of the kind of loans that TLE offer, and I'd do so again in a heartbeat if something else unexpected came up for me. The people there were respectful, helpful, and went out of their way to make the process as quick and simple as they could. It took less than one business day and I had money in my account."

Whether a sudden financial need has to do with an unexpected bill or illness or any other need, Title Loans Express is willing and able to help most prospective customers. "Even if a car is older or a 'collectors' item, we can sometimes fund it, so it is well worth calling us," Mr. Pleske said. "We will definitely help if we can. It's what we're here for."
