

## **Hearing Specialist in Cullman, AL Launches Latest in Hearing Technology**

*March 26, 2020*

March 26, 2020 - PRESSADVANTAGE -

Cullman, Ala. ? A hearing specialist in Cullman, AL is proud to announce their latest addition in their line of advanced sound-processing technology, the Beltone Boost Ultra?. Beltone USA - Cullman believes the advanced streaming capability and improved sound quality, with unique sound clarity and speech understanding, sets the stage for these hearing aids to become the industry?s most comprehensive hearing solution.

Those who are living with severe to profound hearing loss are the top candidates for the Beltone Boost Ultra?. The hearing aids come equipped with Tinnitus Breaker technology, HPF80 NanoBlock protective coatings and Beltone?s signature Remote Care?.

To help protect the device?s delicate circuitry, the NanoBlock protective coating protects the device from various elements that have been known to damage hearing aids circuitry and reduce the overall effectiveness over time. If patients should experience reduced effectiveness, the devices are protected by Remote Care? which allows their patients to finetune their device from anywhere rather than requiring them to visit the clinic each time they need an adjustment made.

Additionally, they are compatible with Beltone's Direct Line wireless accessories which allow for sound streaming connectivity directly from most mobile devices including Android and iPhone. This will allow the wearer to stream the wearer's favorite audiobooks, music and television audio directly into the hearing aid in Cullman.

The professionally trained Hearing Specialists and Patient Care Coordinators at Beltone USA - Cullman are committed to helping their patients find the right solution for their hearing loss. This begins with a free comprehensive hearing screening and personalized hearing health assessment aimed at providing the most accurate information and guiding customized treatment decisions for their patients.

For more information about Beltone USA ? Cullman or the Beltone Boost Ultra, schedule an appointment with one of their Hearing Care Coordinators at (256) 775-6004 by visiting their website at [www.beltoneusa.com/cullman](http://www.beltoneusa.com/cullman).
