Amaze Us, a Caribbean cuisine restaurant in N Brampton, ON, Canada, is proud to announce that they have launched a brand new menu to complement the existing meals in their restaurant. As always, they guarantee that the quality of their food is fantastic and that it is made according to traditional recipes. The company expects to welcome many more Caribbean cuisine enthusiasts through their door.

"We have always prided ourselves in offering the Brampton community something both unique and authentic," says a representative from the restaurant. "When we first started, we received so much support from the community who helped us to become successful very quickly. We felt that the time had come to expand our menu to offer something for every palate."

Today, Amaze Us is one of the biggest up and coming restaurants in Brampton that offers Caribbean food. Every employee in the restaurant has a background in preparing the food, with many of them being natives from the Caribbean islands themselves. They have all worked in the food industry for many years.

Customers of the restaurant have been full of praise of the food and the service. "As soon as you walk through the door, it's like having stepped onto a little Caribbean island," says Liza M. "Sometimes, when we feel the need for a vacation but get depressed because we can't afford a trip to Barbados, we just go to Amaze Us and we get the same type of feeling. It has that friendly charm that you expect from the Caribbean and the food is absolutely to die for. Everything tastes totally fresh, like nothing we have had before."

As can be seen on amazeus.ca, the business is fully family owned. The chefs have many years experience in preparing different types of food. However, the heart and soul of the business lie in the cuisine of the Caribbean and they are sure that everybody will be able to enjoy it. Because of the many years of experience the chefs have, each dish is created to perfection. The recipes are completely unique, with a few secret family ingredients sprinkled in here and there.
