

Passing of the Torch to Take Place at Car Insurance San Antonio Provider Sometime This Year

March 30, 2020

March 30, 2020 - PRESSADVANTAGE -

There is some big news from reputable San Antonio Car Insurance Provider, Falcon Insurance Services Inc. It was revealed that sometime this year a change in leadership will take place at the agency. Longtime agency owner, Ed Cuellar, is about to pass the torch of ownership onto his daughter. It's something that he has been grooming her for over the past few years as it became apparent to him that his time at the company was nearing its end. The company owner says the time for the change is right because he has watched his daughter learn the ropes of operating the business by fully immersing herself in the agency's daily operations over the last few years. This big news was first announced on the agency website which can be seen here at <https://falconins.com>.

Soon to be proprietor, Mercedes Villarreal, had this to say about the big change that is about to take place at the agency, "My father has given everything he has had to this insurance agency since 2007. I have had a front-row seat watching a man who has worked tirelessly to make sure that his clients always had their insurance needs properly met and being there for them when those same clients needed to make a claim. I have also watched a man establish many personal friendships from his work because of the way that he truly cares about his customers. Those will be some pretty big shoes to fill, to say the least. I truly believe that I am up to the task because I have learned from the best in the business. Rest assured that I will give that same type of dedication and effort on behalf of our clients. Many of you know this to be true as you watched me work and learn alongside my father these last few years."

Villarreal mentioned that the agency's clients should not expect big changes once she is in charge. She said she likes the way that at present their customers always seem confident in the fact that they know they have any insurance provider that will stand by their side in tough times. It is her goal to continue to inspire that type of confidence in the agency's customers and even take that a step further. Villarreal says that she knows that's why Falcon Insurance Services has grown so rapidly over the years to the strong and dedicated insurance provider they are today.

She also stated that she is not exactly sure what date this official transfer of ownership will take place. Her father has only assured her that it will take place sometime during the 2020 calendar year. The soon to be agency proprietor admitted that she also does not know exactly what her father's plans are when he steps down from the top spot at the company but she knows he is looking forward to some downtime after all his years in the insurance business. Villarreal says that he did reassure her that he still will be working on a part-time basis for several months to ensure the change at the top of the agency goes smoothly. He felt he owes that to his customers.

The soon to be proprietor also mentioned that one of their go-to services will continue to be their popular car insurance policies. Information on those services can be seen here at <http://car-insurancesa.com/>. She says that since the company was founded in 2007 the agency has been a leader in providing quality protection for thousands of individuals, families, and businesses throughout South Texas. They pride themselves on giving their clients superior customer service to go along with their low rates and their innate ability to understand that their customer's insurance coverage needs are what has driven the success of the agency.

Villarreal indicated that their clients will still be provided with their world-class home, health, business, and life insurance protection too. She said that she will make sure that their clients are covered today as well as in the future so that they can focus worry-free on the other tasks that are important to them and their families. At Falcon Insurance Services Inc., their #1 priority has always been to assist their clients in identifying their insurance needs and risk exposure, while putting together a customized plan for them that's simple and easy to understand. More on these other insurance services can be seen here at <http://home-insurancesa.com/>. Villarreal also stated that the agency will continue to work out of all three South Texas locations that her father worked hard to establish.
