

Remanufactured Toner Cartridges Launched By RGH Enterprises

August 21, 2015

August 21, 2015 - PRESSADVANTAGE -

RGH Enterprises, Inc., based in Baltimore, Maryland, has launched remanufactured toner cartridges on Amazon. The listing can be seen on http://www.amazon.com/gp/product/B00IZKOMJM/ref=s9_hps_bw_g229_i1 where the product is already receiving positive reviews. The company expects this to become a trend.

Ronald Hoff from RGH Enterprises, Inc. says: "We have been in the toner cartridges industry for over 20 years and have offered remanufactured toners for some time. However, we have only recently branched out from our company website to include products on the Amazon selling platform. It is good to see people are already finding and liking us."

The company's best selling products include the Lexmark T650 / T652 / T654 / T656 / T650H21A. They have been offering these remanufactured cartridges through their website for some time now, but they are now also included in the Amazon listings. Since the cartridges have been released there, they have already received numerous positive reviews.

"It is a great cartridge especially for the price!" says Joel Patterson. "I use 2 Lexmark T-650's in our pharmacy and run them both full time. I have used many types of cartridges and paid much more for them, but this one has great quality for me and the last cartridge lasted much longer than I had anticipated. Even if they did leak, you could buy many more for the price (or overprice) of many competitors. I am very satisfied."

Besides offering remanufactured cartridges, the company also prides itself for its customer service. As part of this service, they have also started offering technical support. Customers are encouraged to visit the company's website at <http://rghproducts.com/>. From there, they can start a live chat with a company representative. They also have the opportunity to create an account with the company. This will make it easier to request further support at a later stage and to keep track of past orders.

Finally, for those who wish to purchase their remanufactured toners directly through the RGH Enterprises website, PayPal payments are accepted. All products, regardless of where they were purchased, come with a two-year 100% satisfaction guarantee.
