

Orthodontist Opens Dental Care Clinic In San Antonio

April 02, 2020

April 02, 2020 - PRESSADVANTAGE -

San Antonio, Texas based Cochran Orthodontics is pleased to announce the opening of a pediatric dental clinic on the Southside. Running under the guidance of Dr. Devin Cochran, the new clinic is expected to provide some of the best service in the area to their San Antonio patients.

Dr. Cochran is dedicated to providing gentle and effective dental care to patients from many different dental backgrounds. It is the clinic's belief that excellent oral health begins with education and prevention and that it is the mission of dentists to enlighten patients of ways by which they may achieve a great smile. With a team of knowledgeable, friendly and highly proficient staff on hand, Cochran Orthodontics ensures that every patient is completely comfortable and that each one receives the excellent quality of care they deserve. Now that the pediatric office is set up (with Dr. Elkins handling the general dental needs of the children who visit), Dr. Cochran will be bringing his renowned orthodontic skills to the new location in order to round off its comprehensive list of services. Cochran Orthodontics' website can be found at <https://cochranorthodontics.com/>.

The technology used in orthodontics has improved greatly over the years, with multiple new developments in the field opening up many more options to help correct various dental issues. Cochran Orthodontics understands that each patient is different and has a unique set of requirements, so they strive to provide the

kind of treatment that best suits the specific and individual needs of each patient. ?With our friendly team of experts and advanced equipment, we are confident that we will be able to help you get that perfect smile,? the orthodontic clinic says. ?Both of our San Antonio locations have state-of-the-art equipment that allow us to perform any orthodontic services that you or your child may require. At Cochran Orthodontics, your treatment and oral health are our top priorities. We will thoroughly evaluate your needs and make sure that you get the orthodontic assistance that you need.?

Cochran Orthodontics is also aware that children are likely to feel nervous the first time they see a dentist. To account for this, the clinic does everything in their power to ensure that their young patients are as comfortable as possible during their first visit. The average dental practice for adults features a sterile and impersonal environment, which is why the experts at Cochran Orthodontics saw fit to create an alternative that was specifically designed for children instead.

?The first visit is essentially a routine examination,? says Cochran Orthodontics. ?It is gentle, short and provides an opportunity for parents and children to meet the dentist. We will be given an opportunity to learn more about your family and your child?s specific needs. Your child can start getting used to someone looking inside their mouths, which will stand them in good stead when they return for future visits. In addition, this initial visit will consist of looking for signs of any potential future issues.?

Many of the clinic?s patients have left excellent reviews on various platforms discussing the excellent experience they had at Cochran Orthodontics. For instance, one 5-Star Google review from a patient named Amanda states, ?I love how, every time me and my daughter walk in, we are greeted with respect and smiling faces. Both Ashleys are great with my daughter; they talk to her, and it puts her at ease when having something done. Best of all, they answer any questions my daughter has. They don't seem bothered by it. If an emergency occurs, Dr. Devin Cochran will answer you even if it is the weekend. Overall, an awesome team. I highly recommend them.?

Another client, Pat, says, ?I went to get lingual braces put on, and I couldn't be more impressed with the professionalism, friendliness and quality care. Ashley was great, and Dr. Cochran was very thorough in explaining the process, treatment and expectations. Overall, a great experience, and I look forward to the end goal with a shiny, straight and bright smile.?

Visit the clinic?s website for more information on Cochran Orthodontics, their services and their staff. Dr. Devin Cochran can be reached for further details as well. Learn more at the following link: <https://citybasechildrensdentistry.com/>.
