

Dutch Creek Dental Provides Complementary Exams

April 03, 2020

April 03, 2020 -

Littleton, Colorado based Dutch Creek Dental is reaching out to the wider community to announce that they are providing complementary exams for all of their patients. They also have special programs in place to make dental healthcare easier to obtain for patients who do not have insurance. The full spectrum dental practice provides a variety of services that range from oral health maintenance to complex dental cases, and they regularly see patients from Littleton as well as the neighbouring communities.

Dr. Mike Itoafa, owner of the dental clinic, says, "Dental health is as equally important as any other part of a person's health. In fact, seeing as how integral our mouths and teeth are to our day-to-day activities, it is very important that everyone stays on top of their dental health. At Dutch Creek Dental, we are all firm believers that everyone should have access to a reliable dental clinic, which is why we are providing complimentary initial consultations and exams for every single patient of ours. If you don't have insurance, we also have special programs in place in addition to the complementary exams and consultations that will ensure you have easy and affordable access to dental healthcare."

He adds, "However, with the current global pandemic caused by COVID-19, Dutch Creek Dental is only treating patients with emergencies. As unfortunate as it might be, this is the best approach to ensure the safety and health of everyone involved. Emergencies cannot be avoided and must be tended to immediately,

but in all other cases, following the World Health Organization's guidelines and staying at home as much as you can is what is going to help the world recover from this outbreak.?

The stellar quality of services provided by Dutch Creek Dental have earned the clinic many positive reviews from their patients. On the Google platform alone, the dental clinic has a perfect 5-Star rating. In a recent review, Nancy Vinet says, "My first visit to Dr. Mike was a great experience. At the front desk, Nala was very helpful and knowledgeable about every question I asked, and some I didn't ask. Amber took all the X-Rays needed for my visit and finished my cleaning with a gentle hand. Dr. Mike checked my old fillings and crowns, cleaned my teeth with great care, and for good measure, he did a quick fix on a tooth filling that had fallen out. I couldn't be happier with everyone at Dutch Creek Dental."

In another review, M. Bukacek reports that, "My experiences with Dutch Creek Dental cover a few years now. Dr. Pavel assures me of the process each time I am in. Now, there is a Dr Mike to help and he made certain, today, that I was comfortable and okay with what he was doing. It was a bit extensive because of what I was having done. Bob does the scheduling and helps me whenever I call with questions or just to set an appointment. I never feel rushed. As much I truly do not like having my teeth worked on, they all make it much more relaxing. The prices charged by Dr. Pavel are reasonable."

Established over two decades ago, Dutch Creek Dental is dedicated to bringing the highest standard of comprehensive dentistry to their local community. The dental clinic's mission is to offer their patients a comfortable experience and excellent, long-lasting results. The clinic employs the latest technology and techniques, as well as state-of-the-art laboratories and materials. While they are based in Littleton, Colorado, they see patients from the greater Denver area, including Highlands Ranch, Lakewood and Morrison.

Those who want to learn more about Dutch Creek Dental, their complementary exam, or the various other services they provide can find more information on the clinic's website. Additionally, the clinic encourages interested parties to get in touch with Dr. Mike Itoafa directly via email or phone. The clinic can also be reached through the contact form on their website. In addition to their website, Dutch Creek Dental maintains a presence on Facebook where they frequently post updates, share media and communicate with their patients.
