

## **Recent Review a Testament to How Fast Roofing Companies In Calgary Respond to Emergency Situations**

*April 07, 2020*

April 07, 2020 - PRESSADVANTAGE -

There have been a few recent reviews written on Calgary roofing companies that point out how fast these specialty contractors respond in emergency situations. Perhaps no review illustrated that point better than the one that was written on local contractor No Payne Roofing. A recent review mentioned that this contractor was on scene in as little as 15 minutes when a customer called and asked for emergency roofing help.

In the above mentioned 5 out of 5-star review, customer Controller Calgary says, "Today lots of Calgarians must have experienced an unexpected windstorm and I am one of them. My chimney cap was blown off hanging on the edge of the chimney and no one can help. Found No Payne on the web, phoned Mike, got the details, given my address and a short video, he and his crew (Poh I believe) arrived 15 minutes later, to be fair we are in the same neighborhood :-), and climbed up the roof nailed down the loose chimney cap. No Payne Roofing, two thumbs up." This customer review was left on the company's Google Maps Business Listing page.

This is just one of 77 reviews left on the company on their Google Maps Business Listing. When those

reviews are averaged the company scores an impressive 5 out 5-star overall rating. That's something that is not easy to do for any type of specialty services business. Although No Payne Roofing by no means can get to every emergency service call in 15 minutes, there is another Google review that shows that they respond very promptly when a customer asks for emergency roofing assistance. Kathleen Fritzsons writes, "Amazing service! I had a leak in my roof and they came out the next day to fix it. Other companies would not even return my call as it was a small job. The technician resolved the problem in an hour, was polite and courteous."

Company owner, Mike Payne, had this to say about this recent No Payne Roofing customer review and others like it, "Without a doubt, one of our biggest sources of pride at our roofing company is the large number of glowing reviews that we get. We try to get the message out to our customers that we like to combine excellent roofing work that's done in a timely manner; this is especially true in emergency roof repair situations. We respond quickly to roof emergencies because we have been in this business long enough to realize that even small roof leaks can have serious consequences for the contents and structure of any home or business."

Payne says that most of the roofing emergency calls that they get center around some of the extreme storms that pass through the Calgary, Alberta area from time to time. He says that once they get a call asking for emergency roofing help, as soon as it's safe to go out they will send a crew to a customer's home or business. He says that for light damage they will try to make emergency repairs right away. For more extreme roof damage that needs extensive repairs, Payne says they will place a tarp over the roof to secure it as best as they can until the repair supplies arrive.

No Payne Roofing is a full-service roofing company that does everything from small roof repairs to entire roof replacements. They are also excellent when it comes to finding even the smallest roof leaks. According to Payne, some of their other specialty services include gutter and downspout replacement and repairs, siding repair and replacement, and chimney repairs. No Payne Roofing does free inspections and estimates and they are in good standing and accredited by the local Better Business Bureau.

For those that want to see what else makes No Payne Roofing one of the top roofing companies in Calgary, Payne invites them to visit the company's informational website.
