Straight Arrow Roofing, a roofing company in Brantford, Ontario, that offers its services to Hamilton and neighbouring areas, has announced with pride that they have received a five-star review from one of their customers. The customer is Philip N. who had his roof fixed after it was damaged by a windstorm. Philip praised the excellent quality work that was provided and stated that he would recommend the roofing company to others.

Philip N., in his five-star review, said, ?Our roof is 9 years old and was done by a different company other then Straight Arrow Roofing. I wish I would have had Straight Arrow Roofing do our roof. Joel did a great job fixing our roof. Called Joel after a windstorm damaged some of our shingles. He came over as promised and inspected the damage and the shape of the rest of our roof. He is very honest and did not try to sell us a whole roof. He said that the roof was still in good condition and he could fix what was damaged and there would be no need to redo the entire roof. We agreed to have it fixed upon his recommendation. Joel came back and repaired the damage along with taking care of some other problems from the previous installers work. I would recommend Straight Arrow Roofing to anyone who wants excellent quality work.?

Joel Guerra, founder of Straight Arrow Roofing, says, ?We appreciate all feedback from our customers, especially such rave reviews. While it is not certainly our first time to get a five-star review, we still feel very

much satisfied to have helped a customer have a quality roof over his home. We are committed to continue providing such service to the best of our ability.? Those who would like to take a look at the Straight Arrow Roofing customer review can check out their Google Maps page.

The company is a full-service roofing contractor that provides solutions to all types of roofing problems. They have been providing quality roofing service to various homeowners in the Brant Region and neighbouring areas for the past 10 years and have established a reputation of being roofing experts. At present, they have already expanded and are now capable of serving a bigger market and handling larger and more complex projects. They can offer various kinds of roofing services, including residential roofing; siding installation and repairs; roof repair; attic insulation; eavestroughs and gutters; flat roofing; roof maintenance; and skylight installation and repair.

The residential roofing services offered by Straight Arrow Roofing can be classified into five categories: roof inspection, roof maintenance, roof leak repair, roof installation, and new construction. Roof inspections and maintenance are usually done biannually. With regards to roof repair or replacement, they would like homeowners to know that there are certain signs that there is a need for roof replacement. These include the age of the roof; damages to the roof; shingles that are starting to fold and twist; missing shingles; defective chimney flashings; and gutters filled with shingle granules.

They can also provide eavestrough maintenance and services. They can help homeowners in this, from selecting the best product to space design. They can also provide gutter cleaning services to make sure that all debris and loose elements are removed from both sloped and flat roof areas, that all gutters are cleared by hand, and that every blocked downspout is washed out and evaluated from ground level to ensure proper flow.

They also offer siding installation and repair, and this is the solution for unclean and soiled sidings that reduce the value of the home. With repaired or newly-installed sidings, the home regains its previous stunning looks that will boost its market value.

This roofing company serves the areas of Brantford, Hamilton, and Cambridge. Those who would like to get the services of a dependable Hamilton roofing company may want to check out the Straight Arrow Roofing website or contact them on the telephone or through email.
