

New Facebook Brand Page For Lock Advantage Announced

August 24, 2015

August 24, 2015 - PRESSADVANTAGE -

Lock Advantage, manufacturer of a bestselling bike lock in Amazon, has announced the creation of their new Facebook brand page. The page, which can be found at https://www.facebook.com/pages/Lock-Advantage/867286900015083?ref=aymt_homepage_panel, will feature updates from the outdoor sporting goods company about future product launches, and provide interaction with customers.

Preston Linville of Lock Advantage released this statement about the new page, "We're excited to finally have our Facebook page up and running. Our plan is to communicate with customers regarding our bike lock, as well as new happenings within our company."

The bike lock featured on Amazon at <http://www.amazon.com/dp/B00ZH5DRNA> is a strong, heavy duty steel cable, providing protection from theft. The six foot self-coiling cable is drill resistant and includes a holder. It can also be used to secure tools, ladders, gates, and fences, and comes with a one year warranty.

Many Amazon customers have found the lock to be very beneficial, citing that it is highly recommended for its

security and quality. One Amazon customer has ordered locks for every bike in his family and said, "It's a great value, and one that I just couldn't pass up. When my kids ride their bikes to friends' houses, I want to know that the bikes are secure, so we've ordered one for all of them."

The bike lock currently has several five star reviews, and nearly a 100 percent rating on the Amazon marketplace. "It's well worth the money. I spent nearly 10 times this much on an expensive lock that didn't do its job. With the lock from Lock Advantage, I trust that my \$2,000 bike will be safe," says one customer.

The company has cited customer satisfaction as the primary reason for creating their Facebook page, stating that they want to be able to keep up with customer demand, answer questions, and generally keep their fan base updated with any new products that they plan to roll out later in the year.

More about Lock Advantage can be seen at the company's official website or their newly created Facebook page.
