

Steadfast Tree Care Spotsylvania To Remain Active During COVID-19 Outbreak

April 06, 2020

April 06, 2020 - PRESSADVANTAGE -

VA based Steadfast Tree Care Spotsylvania is pleased to inform their community that they will still be offering their services during the COVID-19 pandemic. The company will be practicing all suggested safe social distancing protocols as they bring their tree care services to Spotsylvania County property owners in order to ensure that local trees are not neglected during this period.

Several measures have been put in place to ensure the safety of both the company's customers as well as their own employees. In addition to sanitizing themselves and their equipment as advised by health authorities, Steadfast Tree Care has integrated social distancing into their workflow in order to eliminate the risk of infection as much as possible. In practice, this means that the company's tree care specialists will reduce all physical contact with each other as they carry out their work. Similarly, customers can rest assured that they will not be closely approached or have to make physical contact with technicians in order to facilitate any tree service on their property.

Steadfast Tree Care states, "We know that our customers will understandably have concerns regarding these policies, but they are being put in place in order to keep ourselves and our community safe. Maintaining a conversation over a physical distance may also seem like a hassle to deal with, but we can assure you that our technicians will do everything in their power to smooth over any delays this causes. For instance, we welcome any input from customers who know exactly what their trees require. Furthermore, if necessary, we can rely on the basic technology at our disposal to communicate, including phone calls and texts. These measures may seem like overkill to some, but we ask that our customers work with us to ensure that everyone's safety is respected."

Given that it may take some time before the pandemic comes to an end, many property owners understand that they should take every opportunity to have their trees taken care of while they can. Fortunately, Steadfast Tree Care is able to handle virtually any tree-related issue, and their ongoing operations will ensure that no one has to go without tree care for the time being.

"The trees on your property fulfill a variety of critical roles," notes the company, "which is why we are doing our best to remain accessible during this period. If you are due for an inspection, which we recommend be carried out every 3-5 years, we encourage you to reach out to us in order to have it done as soon as possible. This way, we can ensure that your trees are in top shape, and they will hopefully not need any more attention until the COVID-19 crisis is at an end."

The company offers a variety of tree care services that property owners may opt for following an inspection. For instance, the company is often called upon to have trees trimmed, clearing any stray branches and leaves away from potential obstructions (such as power lines and roofs). The frequency with which a tree needs to be trimmed depends on several factors, each of which the company's technicians are familiar with.

As they state on their website, "Steadfast Tree Care Spotsylvania wants to make sure you can benefit from trees that are healthy, attractive, and present a low level of risk to your home, your family and even the other trees on your property." In addition to tree trimming and tree removal, the company's offerings include lot clearing, brush removal, storm clean up and emergency tree services.

"Should you find your tree about to fall over or in danger of damaging other parts of your property, don't hesitate to call us," states the company. "We will be responding to emergencies of this nature as quickly as possible as well, so let us know you need our help as soon as you can."

More information can be found on the company's website, which can be found here: <https://mgyb.co/s/8WQQQU>. Similarly, customers may reach out to Phillip Wood of Steadfast Tree Care

Spotsylvania for further details.
