Saint Paul Minnesota Pest Control Company Launches New Website

April 08, 2020

April 08, 2020 -
Minneapolis / Saint Paul, MN based Prompt Action Pest Control (PAPC) is pleased to announce the launch of their new website, which is designed to help the company better serve their customers in the Minneapolis and Saint Paul areas. The new website will help the company make their pest control services more accessible for all their customers. PAPC is well known among homeowners in the area for the excellent service they provide and has been active in the area for decades.

?Our customers...like our service because our focus has been on solving your pest problems since we began our work in 1989, not on locking you into a long-term contract,? the company says. ?Whether you have a persistent pest issue, a new problem or an emergency, you can rely on us to resolve the situation promptly and effectively. If you want real solutions to your pest problems, and peace of mind that they are dealt with effectively and at a fair price, contact us today. Our new site is made specifically for you, our valued customers, to be able to reach us more easily whenever you need help with any kind of pest.?

Prompt Action Pest Control is a family owned and operated pest control company that has been providing pest control services to customers for over 20 years. The company is owned by Jared, Shane, Stephen and Brant Hanson, the four sons of founders Jerry and Edwina Hanson. Their years of experience and commitment to helping their customers deal with all kinds of pests are qualities rarely found in pest control specialists. The staff at Prompt Action Pest Control have dealt with virtually every variety of pest over the decades, having helped rid homeowners of insects, spiders, bats, ants, wildlife and much more.

?Pest problems can come in many sizes and varieties,? Jared says. ?We can assist homeowners with all types of pests regardless of their size, from tiny carpenter ants that are hard to spot but can cause extensive damage, to bats that can spread disease and are simply unpleasant to have around. We can also handle wildlife, such as raccoons, skunks and possums, which all bring destruction and danger everywhere they go. We get rid of them, remove them from your property entirely and make sure they will not return.?

The company has successfully rid over 6000 homes and businesses of pests. PAPC works with the National

Pest Control Association, the Wisconsin Pest Control Association and other organizations in similar fields to keep the areas they serve pest-free. They differ from other organizations in that they are committed to giving their customers the excellent service they deserve, not just getting the job done as quickly as possible?and this is what has allowed Prompt Action Pest Control to become the top pest control service in the area.

Many of the company?s clients have left excellent reviews of PAPC on various review platforms. In a testimony that can be found on Prompt Action Pest Control?s new website, one customer says, ?We have been using Prompt Action Pest Control for more than seven years and have been 100% satisfied with the results of the service. They have been dependable and have always had a solution for any pest control problem we had at our facilities, which include a senior housing, adult day service and a nursing home.?

Another client shares in their Facebook review that, ?Prompt Action Pest Control has been a pleasure to work with. The knowledge and expertise they have provided has resulted in resolving the issues that were initially being addressed (carpenter ants), and we are now utilizing the maintenance program to keep it that way. Stephen is the technician for my area, and he always takes the time to discuss status, options and insight. His customer focus is greatly appreciated and goes a long way in a long term relationship as a provider.?

For more information on PAPC and their services, visit their new site, give them a call, or see their press release page. The Prompt Action Pest Control team is ready and willing to deal with all pests their customers may need help with. Interested parties may contact Jared or any member of the team to follow up on any further inquiries.
