

Dumpster Rental Company in Philadelphia Says Now Is the Time for People to Clean Their Attic or Basement

April 07, 2020

April 07, 2020 - PRESSADVANTAGE -

J&K Trash Removal Inc owner John Blosinski says now is the time for people in Philadelphia and other places to finally clean the attic or basement, or do that general house cleaning they have been postponing for some time. Now that people are in their homes in view of the coronavirus threat, they have enough time for those cleaning tasks they have been delaying when they were busy at work. Meanwhile, J&K wants people to know that they are still operating and are open for clean outs and dumpster rentals. They can make the process of renting a dumpster that these families will need very easy and affordable.

John Blosinski says, "My sister Jean and I represent the third generation operating J&K Trash Removal. We have been a part of this community for more than 50 years. If you're looking to support a local family owned business during these trying times we hope you'll give us a call. Now's the perfect time to tackle that basement, attic or house clean out that's been on your 'to do' list. We make the process of renting a dumpster painless and it's more affordable than you think. Give us a call today and use the coupon code: J&K2020 to save 10% off your rental. Call us today and we can deliver it tomorrow! Please stay safe and well."

For the J&K dumpster rental service, they have a complete line of roll-off dumpsters. The sizes range from 10, 20, 30, and 40 yard containers to suit every kind of need. John Blosinski points out that people would no longer need to wait for more than 24 hours to receive their container or have it picked up.

The family-owned and operated J&K Trash Removal Inc has been operating since the 1930s and is committed to providing the dumpster rental needs of families in the Philadelphia area. They have now grown into a full service waste company with various kinds of services, including residential, rear-load, roll-off, and front-load. Nevertheless, they remain committed to their promise of providing the best service and pricing in the industry.

They have recently added J&K Secure Document Shredding for the Philadelphia area, which allows them to handle all types of waste disposal requirements, from recycling to conventional to secure document disposal. They have been a member of the National Association of Information Destruction (NAID) since 2008. NAID is a leading association for the information destruction industry. John Blosinski wants to stress that they are dedicated to offering quality and courteous service and confidentiality for their customers, providing appropriate information destruction at reasonable prices.

J&K Trash Removal Inc also offers a residential collection service in the Edgemont and Newton Square areas of Southeastern Pennsylvania. They provide a curbside waste collection service, including a residential walk-in service. Because they use a small collection truck, they can come up the driveway of the home to collect the trash.

They also provide single stream recycling for all of their residential customers. With this service, all recycling may be placed in one container and picked up at a certain time. This allows clients to avoid the need to sort the recyclables themselves. Recycling services may also be provided to commercial customers in the form of cardboard recycling and comingled recycling. They can also offer custom and large scale recycling programs for every business. All of the materials collected that has been designated as recyclable are 100 percent recycled at one of their recycling facilities.

For businesses, J&K Trash Removal Inc has a commercial front-load fleet. With this waste solution, businesses will be able to run smoothly when it comes to waste removal. They specialize in industrial, institutional, and commercial waste removal. They can serve industrial complexes, schools, and other large scale industrial operations.

Those who are interested in dumpster rental near me may want to check out the J&K Trash Removal Inc website, or contact them on the phone or through email.
