

LA Fair Offer: We Buy Houses In Los Angeles During The Lockdown

April 07, 2020

April 07, 2020 -

Santa Clarita, CA based LA Fair Offer is reaching out to reassure the communities they serve that their team will continue to operate during the COVID-19 pandemic. While a Stay at Home order is now in effect for the area, the company is determined to ensure that their services will remain accessible to all those who need it.

The Stay at Home mandate went into effect on midnight Thursday, March 19, requiring that families and other parties confine themselves to their homes unless they are deemed essential personnel (which include employees at banks, grocery stores, pharmacies and so on). The local government has also asked that people avoid gathering in groups exceeding 10 members within a single enclosed space. However, residents will still be allowed to leave their homes for certain activities, such as to obtain food and other necessary supplies, seek medical care and even exercise (within reason).

Fortunately, LA Fair Offer does not believe that these measures will hamper their ability to serve any and all clients in need. The company would like to let their community know that they are ready and willing to purchase houses quickly for cash and with minimal delay, and they will be putting every safety guideline into practice as they facilitate the home-buying process. All property owners are welcome to get in touch with the company at their earliest convenience in order to learn how they may sell their houses while abiding by the safety measures advised by healthcare experts.

All are advised to maintain safe social distancing during this period, for instance, which the company states will not inconvenience their operations. For instance, given that the company specializes in acquiring homes no matter what condition they are in, the homeowner in question is not obliged to host an Open House or similar event that would otherwise see many people going in and out of their property. LA Fair Offer will simply consider the value of the house based on a number of factors, including its location, age and so on before presenting the owner with a no-obligation cash offer that the latter may elect to accept at a time of their choosing. The process is incredibly quick as well.

The company states, "If you want to sell your house fast, we're the solution you are looking for. Many families will be looking for an extra source of income during this period, especially if they are unable to work from home and continue to earn a living. If you happen to have a piece of property that you no longer need or want, you can hardly afford to go through the more conventional process of putting it up for sale on the open market. Selling real estate can be difficult and time-consuming in the best of times, and an ongoing pandemic represents a much more difficult obstacle to overcome."

They continue, "However, you will have none of this hassle to deal with if you choose to work with us. We are able to purchase houses no matter what condition they are in, so we do not require you to invest in making it more presentable or continue contributing to its upkeep any longer than you strictly want to. We are not real estate agents, we are cash home buyers. We don't want to list your house, we want to buy it! And we want to buy it fast."

This quick and efficient home-buying process is what the company expects will appeal to sellers the most. As the outbreak goes on, many will want to take the chance to offload any unwanted property. Whether this is because they need the resulting funds or simply wish to avoid having to maintain it themselves any longer is irrelevant to the company. If the owner is willing to sell, LA Fair Offer is willing to make the purchase and they do everything in their power to make each transaction as smooth and hassle-free as possible for their clients.

More information can be found at the company's website. Interested parties are welcome to direct any further inquiries to Ed Stapleton of LA Fair Offer as well. Read further here: [We Buy Houses](#).
