Clean Group Provides Professional Office Cleaning Services In Sydney

April 07, 2020

April 07, 2020 -
Sydney, NSW based Clean Group is proud to announce that they are one of the companies fighting against the spread of the COVID-19 pandemic. Several measures are being taken to alleviate the effects of the virus, such as social distancing, which is currently being practiced worldwide. However, the cleaning company asserts that this may not be enough in certain circumstances. Employees of a given office tend to come from different parts of the city and, during their commutes to the office, one may bring with them the flu or worse?COVID-19.

Clean Group is keen to highlight the importance of practicing cleanliness in the workplace to avoid any untoward incidents. The company has been in business long enough to know that every client has unique needs. This leads them to provide quality office cleaning Sydney residents can rely on. Their process will ensure that the needs of each customer are understood in order for the company to provide the appropriate cleaning solutions. Every task is tailored to the client?s cleaning requirements, complemented by a fair pricing system that is expertly matched with each situation.

One of the many things that set Clean Group apart from their competitors is that they do not forget their duty to promote a cleaner environment despite striving to offer the best cleaning service available. The world today has been witnessing the devastating changes in the environment caused by global warming. Due to this, many are calling for action to help prevent the predicted catastrophic effects from occurring, or asking that such effects be mitigated as much as possible at the very least. While others have taken their own steps to help fight climate change, Clean Group contributes by providing eco-friendly but effective solutions. The cleaners only use non-toxic and biodegradable products, preferably those produced organically or by sustainable farming methods.

Businesses can avail themselves of the professional Office cleaning Sydney services offered by Clean Group. Each client can bring up their cleaning requirements when discussing their needs with the company?s

technicians. The requirements will be then added to the site?s cleaning specifications. These specifications will include the daily, weekly, fortnightly, quarterly and yearly duties needed to maintain the overall cleanliness and sanitation of the business? premises. Some basic specifications include wiping desks and horizontal surfaces, collecting rubbish, cleaning toilets and kitchens and so on.

A former client, Terry, says in his review that, "I have been changing cleaners after cleaners. I lost faith in commercial cleaning and what it can do until I met Clean Group. It was all well handled from the first meeting to the actual cleaning. They have exceptional cleaners who work very hard to maintain consistency with their job. Now, I never worry about how my office will look like the following morning. I can sleep soundly knowing that Clean Group has my back, and they keep my office pretty and neat." His remark only goes to show the company's dedication to providing quality and thorough cleaning services.

However, it must be pointed out that the Clean Group does not only work with offices. Their services extend even to the medical field, which means that the company has to take the necessary steps to ensure the safety of health workers. In a review shared on the company's website, Michel says, "Our business relies heavily on cleanliness. In a medical field, cleanliness plays a vital role in determining the credibility and the performance of health workers. I have engaged with Clean Group for two years now, and I never see myself not having them as my cleaner. They have done more than what was expected of them. Their cleaners are exceptionally polite, honest and very detailed with how they do their job."

Aside from being office cleaners, the company also does cleaning for medical facilities, gyms, churches, warehouses and other establishments. Clients may therefore rest assured that the company is equipped with the experience required to safely maintain operations during the entirety of the COVID-19 pandemic.

Those who want the best office cleaning service in Sydney are invited to contact the company through their website or their social media accounts. Clean Group also has branches in Melbourne and Brisbane. Further inquiries may be directed to Suji Siv of Clean Group as well.
