Phoenix Area Pella Authorized Dealer, Legends Garage Door, Still Offering Quality Garage Door Services at This Time

April 13, 2020

April 13, 2020 -

Reputable Phoenix garage door contractors, Legends Garage Door, are proud to be the only licensed Pella garage door supplier in the area. They also offer Pella garage door installation, service, and parts. This is in addition to all of their other regular garage door installation, maintenance, and repair services.

Company owners, Cory and Melissa Hagen, talked about being part of the exclusive Pella family by saying, ?One of the first decisions that we made when starting this company was that we would only carry quality parts. Being a licensed area representative for Pella garage doors fits that statement to a ?tee?. The Pella name itself has come to be symbolic of quality among professional contractors like us. We could not be more pleased to be their representative in the Phoenix area.? The Hagens went on to add that another reason they are happy to be working so closely with Pella is that they offer over 300 garage door choices. This includes traditional wood, sturdy steel, and budget-friendly vinyl garage doors. They say that Pella also has many decorative styles of garage doors and they firmly stand behind what they sell.

This garage door service in phoenix also wants to remind people that they are still operating during the

current COVID-19 crises. They are considered an essential service. That?s because having an ill working garage door can prevent an essential employee from getting to work or can create a security issue. Cory and Melissa say Legends Garage Door is taking every precaution regarding COVID-19 and that includes the practicing of safe social distancing for employees and customers. Garage door needs should be discussed on the phone beforehand and bill transactions will also be done over the phone after the job is completed. Both say these measures are being enacted to ensure the safety and health of everyone during the performance of their critical garage door services.

Legends Garage Door says that during this unprecedented time a large majority of the company?s garage door services will still be available. That includes new garage door installations and important garage door safety sensor repairs. They say that they will also be doing garage door spring adjustments and replacements. If anyone needs a garage door motor or whole garage door opening system replaced, Legends Garage Door would be happy to get that done for them too. They even offer a wide selection of quiet opening and smart device-controlled replacement garage door openers.

According to the Hagens, Legends Garage Door has also been accredited with the local Better Business Bureau since 2010 and they have the highest attainable BBB rating of A+. That?s because the company is very responsive to both positive and critical feedback that is received through this accreditation service. Most of the reviews left on the BBB website are glowing in nature such as this one by Bob S. who wrote, ?Great service in replacing my 15-year old opener, which quit. I tried fixing the old opener myself by troubleshooting with the manufacturer, even ordering and installing parts, but no-go. Legends installer, Gene, looked at the old opener, quickly diagnosed a shot motor, and quoted a fair price for installation of a new LiftMaster 1/2hp WiFi opener, including a new track, keypad, remotes, sensors, programming. Gene also made a minor-but-needed repair of my garage door's bottom edge, informed me about a condition with the door's spring (replacement not required), and provided helpful answers with other questions I had. Full service, indeed. My good experience began when I called Legends late in the day, explained my situation (try to repair old opener; if not possible, then install new), and was booked immediately for service, which occurred next business day. BTW, the manufacturer of my old opener was among those who recommended Legends.? The team at Legends are ?proud of our BBB Rating?.

The Hagens invite anyone that wants more information on how they are operating during the current COVID-19 crisis or to discuss their Pella garage door selection, to call them, send them an email or fill out the contact form on the company website.
