

TantrumMobileSprayTans.com Announces Spray Tan Palm Beach Gardens

August 19, 2015

August 19, 2015 - PRESSADVANTAGE -

TantrumMobileSprayTans.com is on a mission to offer the safest and best professionally applied 100% natural spray tan in the industry. Tantrum will launch their mobile spray tan service to Palm Beach Gardens residents today. For any occasion from weddings to reunions, office parties to social events, performances or simple indulgence, Tantrum provides all the benefits of a great tan directly to its customers, right in the privacy of their own home or performance venue.

"Traditional UV tanning in beds comes with many risk, more people are turning to the safe alternative, spray tanning is the answer. We provide even natural looking results delivered to our customers using trained professionals and commercial grade spray tan guns," says Melinda Dixon, Owner of TantrumMobileSprayTans.com.

"Tanning beds use ultraviolet light, a known carcinogen, often at strengths 10 to 15 times stronger than summer midday exposure, according to an investigative report prepared for the House Committee on Energy and Commerce. The World Health Organization lists tanning beds as a dangerous form of cancer-causing radiation. In the U.S. non-melanoma skin cancer strikes about 2 million people a year, with 50% to 90% of all cases resulting from UV radiation, according to WHO."

"Spray-tanning technology has come a long way from its decade-old beginnings when people often complained of orange skin tones and short-lived, splotchy and sometimes smelly results," according to the Wall Street Journal.

"We use all natural proprietary solutions. Our professionally trained and certified technicians analyze our clients skin and discuss their desired results before we professionally apply any spray tan solution on our clients. Our clients love their spray tan experience because it leaves them looking natural and even & best of all...it's safe." says Dixon, Tantrum owner.

According to TantrumMobileSprayTan.com, the Tantrum staff offer a relaxing experience free from harmful

side effects. The spray tan is applied at their clients' homes, in their offices, even at performance venues. Perfect for busy professionals who don't want to deal with harsh tanning bed bulbs and folks that are concerned about premature aging and the risk of skin cancer.

Located in Royal Palm Beach, now serving Palm Beach Gardens and the surrounding cities, contact Tantrum Mobile Spray Tans today for details about their lush spray tan offerings. All their contact information is listed below.
