

Bio Clean Of Utah Offers Professional Mold Removal Services In Woods Cross

April 21, 2020

April 21, 2020 - PRESSADVANTAGE -

Centerville, Utah based Bio Clean of Utah is pleased to announce that they will continue to provide professional mold removal services to residents of Woods Cross and the surrounding areas. Since mold is a severe biological hazard, the team of specialists at Bio Clean of Utah has made it their goal to take mold remediation seriously. In fact, they provide a full range of services that include mold inspection, testing for spores and comprehensive mold removal throughout the greater Salt Lake City, Utah area.

?Mold can be the stuff of nightmares for any homeowner because they grow and thrive in just about any environment,? says Daryl Olsen from Bio Clean of Utah. While mold is part of the natural environment and is responsible for breaking down dead organic matter, Olsen points out that indoor mold growth must be avoided at all costs. He explains that mold spores are invisible to the naked eye and are often carried away by the wind. When they begin growing indoors, Olsen states that mold produces allergens and irritants that can cause those exposed to experience symptoms of allergic rhinitis?or what is more commonly known as hay fever.? These symptoms include sneezing, runny nose, skin rashes, irritated eyes as well as nose, throat and lung ailments. This seemingly small problem may prove to be quite bothersome over time, especially to those with existing respiratory conditions.

These are only a few of the reasons for which Olsen emphasizes the importance of finding a professional mold removal company to look into one's mold problems at home. "It is imperative that you contact a professional company like Bio Clean of Utah because mold removal is not a simple task by any means. If not properly addressed, the recurrence of mold infestation is very high," says Olsen. He asserts that Bio Clean of Utah has a team of fully licensed and trained technicians who can remove all toxins and keep people safe from various diseases caused by mold. For a nominal fee, the company can come on-site and perform an inspection, taking into consideration factors such as the history of the property, current dampness, moisture source, affected materials and suspected affected areas. The company employs a variety of moisture detection devices and the latest in mold removal technology. To learn more about the whole process, visit <https://www.biocleanofutah.com/>.

Bio Clean of Utah takes pride in providing comprehensive mold removal services as well as excellent customer service to their clients. In fact, Expertise, a company that reviews and rates local companies, ranked Bio Clean as one of the top 10 damage restoration companies in the city. The reviewer put the company through a rigorous vetting process before awarding this ranking, taking factors such as reputation, credibility, experience and availability into account. Similarly, customers say they are efficient when handling jobs of all sizes. This recognition goes to show that the company's experience in the business is wide-ranging and versatile. Several satisfied customers have also expressed their satisfaction through glowing reviews.

Jennifer says in a 5-star Google review about the company that, "I highly recommend this company. They were very honest and informative. Daryl answered all of our questions. He came out and did a mold inspection for us. He was very kind, extremely patient and taught us all we needed to know about our mold problem. Definitely worth the money. I have already been telling everyone that, if they have mold problems or know anyone who does, call these guys. It was super stressful to find mold in our house but these guys relieved a lot of our stress. They're fantastic and their customer service is amazing. Thank you, Daryl, for educating us so well and also everyone else for taking care of us. You guys are top-notch."

Similarly, Kaitlyn shares that, "I am so happy with this company. I called in worried about potential mold growing in my daughter's room, not knowing anything about what I needed to do. The receptionist was informative and helped me decide what I needed to schedule. Sam came out the same day for an inspection. He was very nice and took the time to thoroughly answer all my questions. I would recommend Bio Clean to a friend."
