

Clarksburg Plumbing Announces Precautionary Actions Amid Concerns Surrounding COVID-19 (Coronavirus)

April 13, 2020

April 13, 2020 - PRESSADVANTAGE -

Clarksburg, MD ? As many communities face growing concerns regarding the coronavirus (COVID-19), Clarksburg Plumbing wants to update their community on some of the policies and procedures Clarksburg Plumbing has in effect. The company advises that these safety policies have not changed and will continue to be in place to protect the safety of their clients and technicians.

All technicians? trucks are equipped with gloves - they are instructed to use a new pair on each and every job. (As some jobs take more than one pair.) All technicians are equipped with PPE face masks that they are instructed to wear on every visit. Each truck is equipped with hand sanitizer. When technicians are not in a place to physically wash their hands with soap and water, they will be utilizing hand sanitizer. All trucks are stocked with sanitizing wipes and/or Simple Green. All technicians have Shubees booties which they change out before each job.

To ensure the health and safety of their team, when scheduling an appointment, the company asks that their clients be prepared to communicate the following questions:

?Have you or anyone in your home/business traveled to California or New York in the past 30 days??

?Have you or anyone in your home/business been diagnosed with or exposed to anyone who has tested positive to the coronavirus??

?Do you or anyone in your home/business currently have a fever??

Clarksburg Plumbing is proud to announce the launch of their new Virtual Consultation Service. With this service, technicians will have the ability to remotely tour a home and discuss pending plumbing problems - offering step-by-step solutions, estimates, and DIY tips. ?Our goal is to provide our customers with peace of mind as well as increased access to one of the only certified women-owned and family operated plumbing companies in the DMV area,? said Katie Byrd President of Certified Women Owned and Operated Clarksburg Plumbing.

For those who are concerned about health and or safety with a visit from a Clarksburg Plumbing technician, the company is encouraging their community to reach out to the office directly. Someone is available 24 hours a day, 7 days a week.
