Roofing Repair Hamilton Contractor Scores Yet Another 5-Star Review

April 16, 2020

April 16, 2020 -

Straight Arrow Roofing is a highly-rated Hamilton, Ontario contractor. That statement is backed up by the fact that their services are always very favorably reviewed. Such is the case with a recent 5-star review that they received from a customer. They were so proud of what the customer had to say about their roofing services that they wanted to share it with everyone.

In the above-mentioned review, Anne Wibberley says, ?Jim and I were very pleased with the service and quality of work we received from Joel and the team from Straight Arrow Roofing. From the initial contact to the completion of the job, we received excellent service. Joel was quick to answer any questions and concerns and to make sure the job was done in a professional and timely fashion. Our property was thoroughly cleaned during and after the job was done, too. We would definitely recommend Straight Arrow Roofing.?

This Straight Arrow Roofing customer review was taken from this well-known Ontario contractor?s Google Maps business listing. It?s just one of 47 reviews that can be seen on that listing. When these reviews are averaged, this roofing contractor scores a more than respectable 4.7 out of a possible 5 stars. That?s

something that?s not easy to accomplish when a company is a service-oriented business because every contractor runs into a customer or two that simply cannot be satisfied no matter how hard they try.

Straight Arrow Roofing founder, Joel Guerra, talked more about what rave reviews like this one means to them by saying, ?Without a doubt, it helps any business when customers leave a glowing review on their services. We appreciate that greatly because it helps us bring in future business. But for us, it also goes well beyond the financial aspect of things. It gives me and my employees a lot of job satisfaction which is also very important. That provides us with the little extra motivation that we need to keep providing our customers with the highest quality roofing services that can be found in the Hamilton, Ontario area.?

This company offers a wide variety of residential roofing services. They are best known for their whole roof replacement services. Guerra says that they will inspect any problem or aging roof with a homeowner onsite free of charge. He says they will then come up with the best way to put a whole new roof covering on for them. The founder says that it?s essential with shingled roofs with several layers on them and older roofs to strip them down to the roof sheathing and then be built back up. This way, a new completely waterproof roof covering is formed over a house. He says that they also do roof leak detection, roof repairs, and roof cleaning.

Guerra added that one of the company?s lesser-known specialties is skylight installation. He says this is a great way for someone to brighten their home while saving on energy costs at the same time. The company founder added that there is also something very invigorating about natural light that separates it from artificially created light. Their crews can add skylights to just about any type of roof and they make sure they are completely watertight after the installation has been done. Guerra also mentioned that they offer a complete line of skylight leak repair services for those in the Hamilton area who has a leaking skylight installed by another contractor.

According to Guerra, they have also become known as the area's flat roof experts. They work with original metal, felt-covered, single-ply thermoplastic and rubber flat roofing materials. Customers are now asking for their help with the construction of green and living flat roof projects, too. Other company specialties include siding installation and repairs, gutter and downspout installation and repairs, chimney services, and adding improved attic insulation.

Any person who is interested in roofing repair in Hamilton or the surrounding areas can read more on this contractor?s services on their informational website.
