Velvet Hangers Maker Amanda Maree Homeware Launches Shopify Store

August 26, 2015

August 26, 2015 - PRESSADVANTAGE -

Amanda Maree Homeware of Walnut, CA is proud to announce the launch of its online store using the Shopify platform. For its opening, the online store is offering its highly revered black velvet hangers, which in the past were sold exclusively through Amazon.

The company is currently taking steps towards promoting its new and upcoming products. "At Amanda Maree Homeware, we aim to provide buying solutions that fit in with our customer's lifestyles and preferences," owner Amanda Maree said. "Having multi-sales channels is one way that we can achieve this, and having an online shop through Shopify is a great way to widen our reach to include new customers."

The black velvet hangers being offered for the company's launch on the Shopify website are slim-line hangers measuring 17.8 inches (width) by 9 inches (height). These are made from flexible material and come with a non-slip suede coating to keep slippery garments, sweaters, tops, and blouses in place. With their improved, velvet flocking, these hangers won't leave a black residue on clothes, unlike other felt hangers. Using these velvet hangers will allow consumers to organize closets, utilize closet space, and maintain neatness.

Amanda Maree Homeware's product is currently receiving great feedback from satisfied customers. After its recent launch months ago, the product holds a rating of 4.5 out of 5 stars. Its most helpful review came from Amazon customer Mandy Payne, who wrote: "Amanda Maree's velvet hangers are space-saving and great for silky clothes! These are high quality hangers. The velvet coating helps slippery silks and large-necked clothes stay up on the hangers better. They also have a little extra bar for accessories like belts and ties."

Amanda Maree Homeware hopes to continue its success on Amazon while attracting new customers on Shopify. "We hope our brand can be promoted through the right platforms, and we have made the right decision by launching our brand through Shopify. It's a long way to go, but it's a start." As of this writing, the company is in the process of developing new products to add to its growing online shop.
