

## **Just Released: Tailor's Bunion Pads By Denadadance**

*August 31, 2015*

August 31, 2015 - PRESSADVANTAGE -

DenadaDance, a company based in Minden, Nevada, is proud to announce the release of its latest product, the Tailor's Bunion Pad. The product is another addition to DenadaDance's line of foot pain relief products. The company announced the launch of the new product through their Facebook page.

Tailor's bunion, or bunionette, is a condition caused by inflammation of the fifth metatarsal bone at the base of the little toe. It is mostly similar to a bunion, which is the same type of ailment affecting the big toe. The fifth metatarsal bone starts to protrude outward, while the little toe moves inward. As a result, there would be a change in alignment, creating an enlargement on the outside of the foot. DenadaDance's company spokesperson stated: "An individual who suffers from tailor's bunion may suffer a great deal of discomfort, and this can affect lifestyle. This is why we felt a need for a product that can provide tailor's bunion relief in an instant."

DenadaDance's pads come in a set of three. They are very soft, comfortable to wear, and easy to wash. The product is made from durable and soft lightweight gel, allowing comfort for its wearer for long periods of time. Using the product prevents skin from rubbing, and relieves pressure caused by bunions. The tailor's bunion pad has a loop that attaches to the little toe, which helps keep the pad from slipping. The pads' size can fit in most shoes.

The product is currently available on Amazon.com. It is getting favorable responses from customers who have tried the product. Amazon customer Kirk gave the product 5 stars, and left a review that said: "I highly recommend this product. I had a burning pain on the outside of the little toe, so I wore DenadaDance's tailor's bunion pads. I wore them for the next two weeks, 16 hours a day. They have just about eliminated the incidence of burning pain."

DenadaDance is currently planning to release more unique products suitable for individuals who require long relief. A list of the company's products can be viewed at their website.
