

Keratin Infused Hair Serum Now Available For Dry & Damaged Hair

April 27, 2020

April 27, 2020 - PRESSADVANTAGE -

Online hair care store Vitamins Hair Cosmetics is proud to bring one of their most innovative products to the attention of their customers: the Vitamins Keratin Serum. This hair serum has been carefully designed to restore life and bounce to dry and damaged hair, fighting against frizz or dehydration in order to give users the beautiful and glossy look they seek. Learn more about the product and its availability at the following link: [Hair Serum Keratin](#).

Vitamins Hair Cosmetics boasts a lineage of experience in the hair care industry that goes back more than 70 years. In the period since Haim Shetrit (a pioneer who invented many different kinds of natural hair care products within the humble confines of his home kitchen) founded the company, they have invested heavily in the research of industry-leading hair care and cosmetic products that align with their oldest principles. These principles, which focus on delivering uncompromising and high quality items to a widespread audience, preside over the creation of each and every one of their products, and this is likely the reason why Vitamins Hair Cosmetics is widely regarded as a leader in the field.

Notably, the Keratin Serum is no different. As part of their highly popular Keratin series, which includes products such as the Keratin Shampoo, Keratin Mask and so on, the Serum boasts many unique properties that make it ideal for people who wish to protect their hair as well as revitalize it. This highly moisturizing product has the ability to rejuvenate hair through myriad means, the most obvious of which can be noted by those who try the product out for themselves. For instance, it promotes the repair of split ends on brittle and dull hair, restoring its natural, soft nature and imbuing an eye-catching glow. Customers will also be pleased to learn that the Keratin Serum has absolutely no alcohol content, parabens or sulphates, as such substances may pose a danger to hair if they are included. Learn more about the products in the Keratin series at the following link: [Keratin Shampoo Amazon](#).

To maintain their priority of using only natural ingredients, Vitamins Hair Cosmetics has created a mixture that combines the essence of multiple herbal oils that work harmoniously to protect hair from any external damage. With this hair serum applied, the company's customers can rest assured that their hair is protected from the elements, including dust and humidity. Furthermore, the product utilizes Keratin and Moroccan Argan oil in order to nourish, moisturize and strengthen all hair types regardless of their state.

All of these specialized ingredients working in tandem serve to repair frizzy and coarse hair, leaving it smooth as well as healthy. Customers even report that they have noticed fewer tangles in their hair after starting to use this product. The company is proud to state that their Keratin Serum can be used on bleached, blonde, colored, color treated, thick, thin, fine, straight or curly hair. In other words, virtually every hair type has much to gain if treated with Vitamins Hair Cosmetics' Keratin Serum. Many will also appreciate the fact that this product is cruelty-free, which means that it was not tested on animals as other make-up products are known to be. The company takes every measure possible to ensure that their manufacturing capabilities are held up to the highest ethical standards.

This stringent adherence to quality is also evident in their customer reviews. For instance, a 5-Star Amazon review of the Keratin Serum says in part that, "I was pleasantly surprised at how it dissolved in my hand, had such a smooth texture, how it made my hair sleeker and how it made it feel so silky and smell so heavenly! Now, I still wouldn't put a lot of it on at one time due to the water content and my hair texture, but luckily, you don't have to because a little goes a long way!?"

Similarly, another happy customer shares, "It smells so nice and leaves my hair very soft and smooth. It won't leave your hair looking or feeling oily as the day goes by. It disappears into your hair like a soft, invisible and protective coating for split ends and recently dyed or blow-dried hair. It leaves your hair looking nice and fresh, but not at all oily."
