

Furnace Repair Richmond Hill Has Formed a New Partnership to Better Serve Their Customers HVAC Needs

April 27, 2020

April 27, 2020 - PRESSADVANTAGE -

Furnace Repair Richmond Hill has just announced they have formed a new partnership. They have now paired up with Martino HVAC to better serve the heating and other HVAC needs of their customers in Richmond Hill and the surrounding Ontario areas. This new partnership will enable these two major furnace repair and HVAC players in the Toronto area to feed off of each other's strengths. That will help put them among the elite of HVAC and furnace service companies in the Toronto area.

Company spokesperson, Eric Lyon, had this to say about their new partnership, "Like all good companies, we have some areas that we cover as far as HVAC services go that we are the absolute best at. We also realize that the HVAC service and repair field is a very broad one that requires a furnace services provider to do many different things. Realistically speaking, no company can be experts at all the tasks that are required of HVAC service providers. That's why we have decided to partner with Martino HVAC. Our areas of expertise in the HVAC field seem to complement each other very nicely."

Lyon added that there is a lot to like about Martino HVAC. He says that it all starts with the fact that they are a

locally owned and operated company that has been successfully serving the HVAC needs of those in the Greater Toronto area for over 30 years now. In that time, they have established a reputation for being a heating and air services provider that is knowledgeable and trustworthy. The company spokesperson added that it was the exact type of HVAC partner they were looking for. They also feature fully certified HVAC technicians and have long been offering some of the best warranties in the area on their HVAC products and services. Lyon added that they are even the areas leading licensed professionals when it comes to working on popular Daikin Comfort Pro and Goodman HVAC systems. He says that over the years they have proven themselves to be a very reliable HVAC Contractor. According to the company spokesperson, Martino HVAC has many strong suits. One of them is how skilled they are at servicing and installing the air conditioner components on HVAC units. He says that they also have an excellent reputation when it comes to servicing and installing home air quality improvement equipment and flexible and efficient ductless air conditioning systems.

The company spokesperson said that their furnace services company has also worked hard to establish a highly credible reputation in Richmond Hill and the surrounding areas. They are a family-owned and operated company that only employs the most skilled and knowledgeable HVAC technicians. Furnace Repair Richmond Hill is very responsive to their customers' furnace and HVAC needs too. This includes responding to emergency furnace service calls 24-hours a day 365 days a year. Lyon says that they pride themselves on always being there for their customers when they are needed. He says that they also know the right way to treat their customers. That's why they have been recognized by such organizations as the Better Business Bureau for their outstanding customer service. They have the highest A+ rating with this reputable business watchdog organization. The company says that they are furnace experts first and foremost. Lyon says that when the business was first formed in 2008 they decided it was better to mostly specialize in one area than try to be just ok at many HVAC tasks. He says because of this they never run into a furnace problem that they can't resolve in a timely manner.

Lyon said that when you take a comprehensive look at the services that each company provides and the way they are both customer service oriented, it's easy to see why they are a perfect match when it comes to forming a new partnership. The company spokesperson also said that for those looking for more information on the HVAC services that Furnace Repair Richmond Hill can now provide for them, they can refer to the company's website at <https://furnace-repair-richmond-hill.ca>.
