

NATURE'S HANGOUT™

Nature's Hangout Bird Feeder Voted The Best For Watching Birds Up Close By Its Customers

September 01, 2015

September 01, 2015 - PRESSADVANTAGE -

Nature's Hangout, a company based in Cedar Crest, New Mexico, is proud to announce that customers, of their latest product, are leaving very positive feedback on Amazon. The company's product, a window bird feeder, currently has a perfect score of 5 out of 5 stars on the super store.

The bird feeder comes with a unique see-through design, and birdwatchers can enjoy watching wild birds up close from inside their home. "We at Nature's Hangout are extremely happy with the recent increase in great feedback for our product," Neil, a Marketing Manager at Nature's Hangout, stated. "Of course, this wouldn't stop us from creating more useful and attractive products. In fact, it's just the start."

Bird watching has become a favorite pastime for many, and Nature's Hangout has created a bird feeder that allows birdwatchers to observe birds with favorable views. It's made from acrylic, and its highly transparent design makes bird watching a more detailed and beautiful experience. The product securely mounts to your window, making it easy to view while relaxing inside your home.

Nature's Hangout's window bird feeder is easy to install, fill up, and clean. It measures 11.8 x 5 x 4 inches,

and can hold up to two cups of bird feed. Since it's suitable for windows, birdwatchers no longer need to use binoculars. It has a perch design with a padded grip, as well as a top cover piece that protects the birds and the seeds from rain and snow. The product mounts with three all-weather suction cups and several customers have commented how strong the suction is.

Amazon customer Paul wrote a helpful review on the website. "High quality details," said Paul. He added: "The installation is very intuitive and the three suction cups are strong. This window bird feeder is a superb way of viewing your feathered friends. The birds love it, and it is entertaining for me to watch my dog stare at the birds through the clear glass from inside." It has been noted that the product continues to receive great feedback consistently.

Nature's Hangout looks forward to creating more products for bird watching enthusiasts.
